

DEDICATION

As well as everything that I do, I would be honor to dedicate this Compilation to my parents. The two person that gave the tools and values necessary to be where I am standing today. My parents support me on every step I make, and decision I take; but is necessary to understand that they let me take my decisions alone in order for me to learn from my personal mistake and as my father says to “learn and grow from each seatback”. I will never finish to thank my father and my mother for all the opportunities that they have offer and gave me, for all the teachings that they have told me and for every advise that come out of their mouth. I am so graceful with them for trusting me that I would do a Good job in the university, and letting me come to achieve a higher education.

So that’s why I dedicate this Portfolio to my parents, whom expect my effort on everything that I do, and I think that this Compilation is the perfect image and reflection of my effort and hard work in Reading and Writing Skills. Mama and Papa: I hope that I can make you proud, the same way that I am proud of having both of you as my parents and as the compass of my life!

Congressional Record United States. Congress,1981 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 Work in Progress Sean Alexander Gurd,2011-12-06 Work in Progress offers an in depth study of the role of literary revision in the compositional practices and representational strategies of Roman authors at the end of the republic and the beginning of the principate It focuses on Cicero Horace Quintilian Martial and Pliny the Younger but also offers discussions of Isocrates Plato and Hellenistic poetry The book s central argument is that revision made textuality into a medium of social exchange Revisions were not always made by authors working alone often they were the result of conversations between an author and friends or literary contacts and these conversations exemplified a commitment to collective debate and active collaboration Revision was thus much more than an unavoidable element in literary genesis it was one way in which authorship became a form of social agency Consequently when we think about revision for authors of the late republic and early empire we should not think solely of painstaking attendance to craft aimed exclusively at the perfection of a literary work Nor should we think of the resulting texts as closed and invariant statements sent from an author to his reader So long as an author was still willing to revise his text served as a temporary platform around and in which a community came into being The theories of revision that guide the author s study come from the new genetic criticism that has been successfully applied especially in Europe to modern authors While many of the tools of analysis applicable to modern authors author written manuscripts

corrected proofs etc are not available for ancient authors Sean Gurd has amassed a surprising number of passages in ancient texts about revision its importance to the author and the circle of critics involved in the process of rewriting *The Design, Implementation, and Assessment of a Three Year Research Program at the High School Level* Andrew John Moore,2007
