

GATTACA Analysis Questions

Please write answers in your journal

1. As the opening credits roll, the letters A, T, C and G get highlighted in people's names. Describe the significance of these letters.
2. Write the complimentary strand of DNA nucleotide bases for a segment of DNA with nucleotide base sequence: GATTACA.
3. What is the significance of the spiral staircase in Jerome and Vincent's home?
4. Health benefits provided by employers and health insurance companies help pay for their employees' care if they become ill. Explain how a gene test could be *used against* a prospective employee or someone applying for insurance. How were Vincent's genes used against him in the movie?
5. DNA for genetic testing can be collected from a small amount of blood, hair, saliva, and other body fluids. During a party scene in GATTACA, a woman submits a saliva sample from a recent kiss to screen her potential boyfriend/husband's DNA. Do you think that she was violating his rights by doing this without his knowledge, or is she just protecting herself from choosing an unsuitable partner?
6. How much would a DNA test reveal about someone's personality and intelligence?
7. We witnessed Vincent's parents visiting a doctor who specialized in child conception to select for the best traits for his future brother. The parents hoped that his brother would have the best possible chances for a successful life. Some of the traits mentioned in GATTACA included any possibility of inherited diseases, height, and perhaps intelligence. If you and your partner decide to have a child one day and are given the opportunity to select for special traits, would you do so? Why or why not?
8. What extreme measures is Vincent willing to undertake to achieve his dreams?
9. Discuss the real Jerome "Eugene" Morrow. How is his relationship with Vincent symbiotic? In what ways is perfection both a burden and a curse?
10. A *cautionary tale* attempts to warn the viewer about the flaws of an individual or society. What warning is the film attempting to raise? How does the film do this?

DeLisi, 2016-04-13 Schizophrenia is a chronic severe mental illness that can be devastating for patients and their loved ones Whether you are a newly diagnosed patient or a relative of someone suffering from this condition this book offers help 100 Questions Answers About Schizophrenia Painful Minds Third Edition provides authoritative practical answers to your questions about symptoms diagnosis treatment options sources of support and much more Expert psychiatrist Dr Lynn E DeLisi has updated her book with new facts statistics and helpful information that many patients and their families seek including new progress in genetics updates on medication use and other new treatments new emphasis on early detection and treatment as well as new diagnostic structures with DSM V and for research the RDoC This book is an invaluable resource for anyone coping with the physical mental and emotional turmoil of schizophrenia

Handbook of Research on Science Literacy Integration in Classroom Environments Tai, Chih-Che, Moran, Renee M. R., Robertson, Laura, Keith, Karin, Hong, Huili, 2018-10-12 Secondary schools are continually faced with the task of preparing students for a world that is more connected advanced and globalized than ever before In order to adequately prepare students for their future educators must provide them with strong reading and writing skills as well as the ability to understand scientific concepts The Handbook of Research on Science Literacy Integration in Classroom Environments is a pivotal reference source that provides vital research on the importance of cross curriculum discipline connections in improving student understanding and education While highlighting topics such as curriculum integration online learning and instructional coaching this publication explores practices in teaching students how to analyze and interpret data as well as reading writing and speaking This book is ideally designed for teachers graduate level students academicians instructional designers administrators and education researchers seeking current research on science literacy adoption in contemporary classrooms *The Human Genome Project in College Curriculum* Aine Donovan, Ronald Michael Green, 2008 Begun formally in 1990 the U S Human Genome Project's HGP goals were to identify all the 20 000 to 25 000 genes in human DNA determine the sequences of the three billion chemical base pairs that make up human DNA store this information in databases improve tools for data analysis and transfer related technologies to the private sector It was the first large

scientific undertaking to address potential issues that arose from project data and opened up vast possibilities for the use of genetic data and the alteration of our genetic makeup This volume is the first to address the diverse range of ethical issues arising from the HGP and enables professors to bring this critically important topic to life in the classroom **More Than**

Things Paul Louis Metzger,2023-08-08 In a world dominated by things we must work hard to account for one another's personhood Drawing a diverse set of thought leaders Paul Louis Metzger helps us navigate a pluralistic world through a personalist moral framework addressing issues such as abortion genetic engineering immigration drone warfare and more

Engineering the Human Bert Jaap Koops,Christoph H. Lüthy,Annemiek Nelis,Carla Sieburgh,J.P.M. Jansen,Monika S. Schmid,2013-02-12 The volume is collection of articles treating the topic of human improvement enhancement from a variety of perspectives philosophical literary medical genetic sociological legal etc The chapters in this volume treat not only those aspects that most immediately come to mind when one thinks of human enhancement such as genetic engineering cloning artificial implants and artificial intelligence etc Somewhat less obvious aspects include evolutionary perspectives in connection with the prolongation of the human lifespan plastic surgery since its beginnings and questions such as whether the distinction between natural and artificial can really be drawn at all and how it has been conceived across the ages or what the legal implications are of recent developments and techniques Many papers make links to the representation of these developments in popular culture from Jules Verne through Aldous Huxley to the movie Gattaca address the hopes and fears that come with them as well as the question how realistic these are While all chapters are written by scientists at the international top of their respective fields all are accessible to a non specialist audience and eminently readable We believe that they represent a state of the art overview of questions that are of interest to a large audience The book thus targets a non specialist audience with an interest in philosophical sociological scientific and legal issues involved in both traditional and recent matters concerning the desire of mankind to improve itself the human body the human mind and the human condition It is unique in that it brings together all these aspects within a coherent and cohesive collection *Classic*

Questions and Contemporary Film Dean A. Kowalski,2015-08-24 Featuring significant revisions and updates *Classic Questions and Contemporary Film* An Introduction to Philosophy 2nd Edition uses popular movies as a highly accessible framework for introducing key philosophical concepts Explores 28 films with 18 new to this edition including *Eternal Sunshine of the Spotless Mind* *Hotel Rwanda* *V for Vendetta* and *Memento* Discusses numerous philosophical issues not covered in the first edition including a new chapter covering issues of personal identity the meaningfulness of life and death and existentialism Offers a rich pedagogical framework comprised of key classic readings chapter learning outcomes jargon free argument analysis critical thinking and trivia questions a glossary of terms and textboxes with notes on the movies discussed Revised to be even more accessible to beginning philosophers **Digital Personalized Health and Medicine**

L.B. Pape-Haugaard,C. Lovis,I. Cort Madsen,2020-06-17 Digital health and medical informatics have grown in importance in

recent years and have now become central to the provision of effective healthcare around the world This book presents the proceedings of the 30th Medical Informatics Europe conference MIE This edition of the conference hosted by the European Federation for Medical Informatics EFMI since the 1970s was due to be held in Geneva Switzerland in April 2020 but as a result of measures to prevent the spread of the Covid19 pandemic the conference itself had to be cancelled Nevertheless because this collection of papers offers a wealth of knowledge and experience across the full spectrum of digital health and medicine it was decided to publish the submissions accepted in the review process and confirmed by the Scientific Program Committee for publication and these are published here as planned The 232 papers are themed under 6 section headings biomedical data tools and methods supporting care delivery health and prevention precision medicine and public health human factors and citizen centered digital health and ethics legal and societal aspects A 7th section deals with the Swiss personalized health network and section 8 includes the 125 posters accepted for the conference Offering an overview of current trends and developments in digital health and medical informatics the book provides a valuable information resource for researchers and health practitioners alike

Science and the Spiritual Quest W. Mark Richardson, 2002 Addressing fundamental questions about life this unique volume examines the way in which distinguished scientists of different faiths explore the connections between science ethics spirituality and the divine

STEAM Meets Story Gloria D. Campbell-Whately, Diane Rodriguez, Jugnu Agrawal, 2021 This innovative STEAM guide will help general and special education teachers to increase effective instruction with adolescents grades 5 10 The authors show teachers how to link STEM concepts with popular fiction and film selections as a catalyst to launch student interactions discussions projects and investigations This approach will promote problem solving and reasoning skills by initiating the scientific process rather than simply presenting established facts The book includes a wealth of lesson plans that connect abstract STEM ideas to realistic experiences that students encounter Sample lessons call on students to produce drawings and models that move STEM to STEAM Grounded in popular film and the 31 books most read by adolescent students the text includes teaching strategies found to be effective with traditionally underserved students and those with disabilities Book Features Standards based STEM lessons are interrelated and interwoven with writing reading speaking and other skills Practical ideas and hands on activities for engaging adolescents in both traditional and virtual environments Guidance for working with diverse populations such as students with different abilities culturally and linguistic diverse students translingual students and transnational students Includes full lessons templates and handouts

Technology and Society: A Philosophical Guide James Gerrie, 2018-05-30 Technology and Society provides an up to date introduction to the basic issues that have come to define the philosophy of technology What is technology Does technology control our lives What is technology's relation to ethics How does technology influence us Is the widespread belief in technological progress justified Later sections of the book examine the application of philosophy of technology to social issues such as climate change urban sprawl and automation

Major issues and arguments are presented in an accessible and non technical fashion giving the reader a firm foundation in the field

Making Sense of Nature Noel Castree, 2013-08-15 We listen to a cacophony of voices instructing us how to think and feel about nature including our own bodies The news media wildlife documentaries science magazines and environmental NGOs are among those clamouring for our attention But are we empowered by all this knowledge or is our dependence on various communities allowing our thoughts sentiments and activities to be unduly governed by others Making Sense of Nature shows that what we call nature is made sense of for us in ways that make it central to social order social change and social dissent By utilising insights and extended examples from anthropology cultural studies human geography philosophy politics sociology science studies this interdisciplinary text asks whether we can better make sense of nature for ourselves and thus participate more meaningfully in momentous decisions about the future of life human and non human on the planet This book shows how nature can be made sense of without presuming its naturalness The challenge is not so much to rid ourselves of the idea of nature and its collateral concepts such as genes but instead we need to be more alert to how why and with what effects ideas about nature get fashioned and deployed in specific situations Among other things the book deals with science and scientists the mass media and journalists ecotourism literature and cinema environmentalists advertising and big business This innovative text contains numerous case studies and examples from daily life to put theory and subject matter into context as well as study tasks a glossary and suggested further reading The case studies cover a range of topics range from forestry in Canada and Guinea to bestiality in Washington State to how human genetics is reported in Western newspapers to participatory science experiments in the UK Making Sense of Nature will empower readers from a wide range of fields across the social sciences humanities and physical sciences

Exploring Science Through Science Fiction Barry B. Luukkala, 2019-11-01 How does Einstein's description of space and time compare with Doctor Who Can James Bond really escape from an armor plated railroad car by cutting through the floor with a laser concealed in a wristwatch What would it take to create a fully intelligent android such as Star Trek's Commander Data Exploring Science Through Science Fiction addresses these and other intriguing questions using science fiction as a springboard for discussing fundamental science concepts and cutting edge science research It includes references to original research papers landmark scientific publications and technical documents as well as a broad range of science literature at a more popular level The revised second edition includes expanded discussions on topics such as gravitational waves and black holes machine learning and quantum computing gene editing and more In all the second edition now features over 220 references to specific scenes in more than 160 sci fi movies and TV episodes spanning over 100 years of cinematic history Designed as the primary text for a college level course this book will appeal to students across the fine arts humanities and hard sciences as well as any reader with an interest in science and science fiction Praise for the first edition This journey from science fiction to science fact provides an engaging and surprisingly approachable read Jen Jenkins Journal of Science

Fiction Vol 2 1 September 2017 *The Science Teacher*, 2005 SCC Library has 1964 cur *The Disability Studies Reader* Lennard J. Davis, 2016-10-19 The fifth edition of *The Disability Studies Reader* addresses the post identity theoretical landscape by emphasizing questions of interdependency and independence the human animal relationship and issues around the construction or materiality of gender the body and sexuality Selections explore the underlying biases of medical and scientific experiments and explode the binary of the sound and the diseased mind The collection addresses physical disabilities but as always investigates issues around pain mental disability and invisible disabilities as well Featuring a new generation of scholars who are dealing with the most current issues the fifth edition continues the Reader's tradition of remaining timely urgent and critical

Teaching Transhumanism Engelbert Thaler, 2021-05-31 Onco mice and cloned sheep drones and auto automobiles neuro enhancement and prosthetic therapy Is transhumanism a movement that epitomizes the most daring courageous imaginative and idealistic aspirations of humanity Ronald Bailey 2004 or rather the world's most dangerous idea Francis Fukuyama 2009 This volume attempts to elucidate what we understand by the term transhumanism what topics and problems we face what media are suitable for classroom use what lesson scenarios seem effective what benefits we may reap and what challenges we have to cope with when we teach transhumanism in English language classes

The Edge of Evolution Ronald Edwards, 2016-02-17 In this interdisciplinary work author Ron Edwards offers an innovative rereading of H G Wells *The Island of Dr Moreau* Edwards utilizes his twenty five years in biology and the ethics of animal research to examine the bioethical implications of Wells work and its relevance to contemporary scientific and philosophical discussions He tackles the myth of human exceptionalism the notion that we are fundamentally different from the rest of the animal kingdom We must view ourselves he argues not as from animals but as animals The approachable tone is suitable for a wide audience of the scientifically curious At the same time great care is given to providing an accurate and considered treatment of the technical aspects of the novel including the scientific plausibility of Dr Moreau's experiment Never before have Wells ideas been examined in such detail by an evolutionary biologist with the author's considerable experience The implications are far reaching touching on key topics in animal rights evolution and the relationship between religion and science Its approachability and dedication to technical accuracy produces a unique perspective on Wells classic Anyone with an interest in confronting some of the central issues of human existence through the lens of fiction will be rewarded with an original and thought provoking work

Philosophy through Film Amy Karofsky, Mary M. Litch, 2014-07-11 Many of the classic questions of philosophy have been raised illuminated and addressed in celluloid In this Third Edition of *Philosophy through Film* Mary M Litch teams up with a new co author Amy Karofsky to show readers how to watch films with a sharp eye for their philosophical content Together the authors help students become familiar with key topics in all of the major areas in Western philosophy and master the techniques of philosophical argumentation The perfect size and scope for a first course in philosophy the book assumes no prior knowledge of philosophy It is an excellent teaching

resource and learning tool introducing students to key topics and figures in philosophy through thematic chapters each of which is linked to one or more focus films that illustrate a philosophical problem or topic Revised and expanded the Third Edition features A completely revised chapter on Relativism now re titled Truth with coverage of the correspondence theory the pragmatist theory and the coherence theory The addition of four new focus films Inception Moon Gone Baby Gone God on Trial Revisions to the General Introduction that include a discussion of critical reasoning Revisions to the primary readings to better meet the needs of instructors and students including the addition of three new primary readings excerpts from Bertrand Russell s The Problems of Philosophy from William James Pragmatism A New Way for Some Old Ways of Thinking and from J L Mackie s Evil and Omnipotence Updates and expansion to the companion website including a much expanded list of films relevant to the various subfields of philosophy Films examined in depth include Hilary and Jackie The Matrix Inception Memento Moon I Robot Minority Report Crimes and Misdemeanors Gone Baby Gone Antz Equilibrium The Seventh Seal God on Trial Leaving Las Vegas

Medical Humanities Review, 1998 *Black Space* Adilifu Nama, 2010-01-01

Winner Rollins Book Award Southwest Texas Popular Culture Association American Culture Association 2008 Science fiction film offers its viewers many pleasures not least of which is the possibility of imagining other worlds in which very different forms of society exist Not surprisingly however these alternative worlds often become spaces in which filmmakers and film audiences can explore issues of concern in our own society Through an analysis of over thirty canonic science fiction SF films including Logan s Run Star Wars Blade Runner Back to the Future Gattaca and Minority Report Black Space offers a thorough going investigation of how SF film since the 1950s has dealt with the issue of race and specifically with the representation of blackness Setting his study against the backdrop of America s ongoing racial struggles and complex socioeconomic histories Adilifu Nama pursues a number of themes in Black Space They include the structured absence token presence of blacks in SF film racial contamination and racial paranoia the traumatized black body as the ultimate signifier of difference alienness and otherness the use of class and economic issues to subsume race as an issue the racially subversive pleasures and allegories encoded in some mainstream SF films and the ways in which independent and extra filmic productions are subverting the SF genre of Hollywood filmmaking The first book length study of African American representation in science fiction film Black Space demonstrates that SF cinema has become an important field of racial analysis a site where definitions of race can be contested and post civil rights race relations re imagined
