Writing History in Late Modern English Isabel Moskowich, Begoña Crespo, Luis Puente-Castelo, Leida Maria Monaco, 2019-10-09 This volume focuses on the relationship and interaction of language and science between 1700 and 1900. It pays particular attention to English History writing in late Modern English as compiled in the Corpus of History English Texts CHET, a newly released sub-corpus of the Coru, a Corpus of English Scientific Writing. The chapters cover methodological issues, the period, and the status of the discipline itself, as well as pilot studies for the description of scientific discourse using CHET. They embrace topics in several linguistic fields: discourse analysis, syntax, semantics, morpho-syntax. The studies take into account extralinguistic parameters of texts, such as year of publication, sex of the author, geographical provenance of authors, and the communicative formats/genres to which the text sample belongs. In the particular case of CHET, the collected samples can be grouped in eight different categories, and such categories, as well as the above-mentioned metadata information, can be used to search the corpus. The book is of interest for scholars specialised in corpus linguistics and historical linguistics, as well as linguists in general. The metadata information used for analysis can also be of interest for historians and historians of science, in particular. The Corpus of History English Texts CHET, accompanied by the Coru, a Corpus Tool CCT, purpose-designed software by IrLab, is accessible online at the Repositorio Universidade Coru, a at <http://hdl.handle.net/2183/21849>. *Arihant ICSE History & Civics Semester 2 Class 10 for 2022 Exam* Nandini Sharma, 2021-12-30 With the introduction of National Education Policy 2020, the Indian Education System has taken a step forward in smart learning.
