

Solution:

<i>Class</i>	<i>Frequency (f)</i>
1 – 3	6
3 – 5	9
5 – 7	15
7 – 9	9
9 – 11	1
—	$n = 40$

To find Mode Class Here, maximum frequency is 15 .

\therefore The mode class is 5 – 7.

$\therefore L$ = lower boundary point of mode class = 5

$\therefore f_1$ = frequency of the mode class = 15

$\therefore f_0$ = frequency of the preceding class = 9

$\therefore f_2$ = frequency of the succeeding class = 9

$\therefore c$ = class length of mode class = 2

$$\begin{aligned}
 Z &= L + \left(\frac{f_1 - f_0}{2 \cdot f_1 - f_0 - f_2} \right) \cdot c \\
 &= 5 + \left(\frac{15 - 9}{2 \cdot 15 - 9 - 9} \right) \cdot 2 \\
 &= 5 + \left(\frac{6}{12} \right) \cdot 2 \\
 &= 5 + 1 = 6
 \end{aligned}$$

Confronting Land and Property Problems for Peace Shinichi Takeuchi, 2014-06-05 This collection clarifies the background of land and property problems in conflict affected settings and explores appropriate policy measures for peace building While land and property problems exist in any society they can be particularly exacerbated in conflict affected settings characterized by unstable security weak governance loss of proper documentation as well as the return of refugees and Internally Displaced Persons Unless these problems are properly addressed they can destabilize fragile political order and hinder economic recovery Although tackling land and property problems is an important challenge for peace building it has been relatively neglected in recent debates about liberal peace building as a result of the strong focus on state level institution building such as security sector reforms and transitional justice Using rich original data from eight conflict affected countries this book examines the topic from the viewpoint of State society relationship In contrast to previous literature this volume analyses land and property problems in conflict afflicted areas from a long term perspective of state building and economic development rather than concentrating only on the immediate aftermath of the conflict The long term perspective enables not only an understanding of the root causes of the property problems in conflict affected countries but also elaboration of effective policy measures for peace Contributors are area specialists and the eight case study countries have been carefully selected for comparative study The collection applies a common framework to a diverse group of countries South Sudan Uganda Rwanda Burundi Cambodia Timor Leste Colombia and Bosnia Herzegovina
