Human Interaction, Emerging Technologies and Future Applications II Tareq Ahram, Redha Taiar, Vincent Gremeaux-Bader, Kamiar Aminian, 2020-04-02 This book reports on research and developments in human technology interaction. A special emphasis is given to human computer interaction and its implementation for a wide range of purposes such as healthcare, aerospace, telecommunication, and education among others. The human aspects are analyzed in detail. Timely studies on human centered design, wearable technologies, social and affective computing, augmented virtual and mixed reality, simulation, human rehabilitation, and biomechanics represent the core of the book. Emerging technology applications in business, security, and infrastructure are also critically examined, thus offering a timely, scientifically grounded, but also professionally oriented snapshot of the current state of the field. The book is based on contributions presented at the 2nd International Conference on Human Interaction and Emerging Technologies Future Applications (IHIET AI 2020) held on April 23-25 in Lausanne, Switzerland. It offers a timely survey and a practice-oriented reference guide to researchers and professionals dealing with design and/or management of the new generation of service systems.

**Athletic Training and Therapy** Leamor Kahanov, Ellen K. Payne, 2022 This graduate-level textbook instills evidence-based knowledge of contemporary practices in athletic training and health care. Esteemed authors Gretchen A. Schlabach and Kimberly S. Peer explain the necessity of practicing and leading with integrity across one's athletic training career. The text explores issues related to cultural competence and professional behavior, as well as ethical leadership and decision-making skills that both inform and transcend the athletic training profession. Each chapter is accompanied by frameworks that lead to both analysis and awareness of legal statutes, ethical principles, regulatory practice acts, and professional practice standards that encourage responsible reasoning and conduct. Contemporary journal articles can also be found in every chapter to help readers make connections between content and clinical practice. The text also includes assessment tools, sample models for ethical decision-making, writing about moral issues, and sample course design and delivery for teaching ethics. Included in the instructor's materials are nearly 50 cases to promote critical thinking, as well as learning activities for each chapter. Included with the text are online supplemental materials for faculty use in the classroom. Covering all levels of ethical practice from the entry-level student to the
