PRESS RELEASE

ANNOUNCEMENT OF NATA 2018 EXAMINATION RESULTS

The Office of the Council is in receipt of requests from some students regarding re-evaluation of their drawing papers.

In this regard, it is informed that NATA Examination was conducted online. The Council, in NATA-2018 Brochure, had mentioned that no request will be entertained to re-evaluate the answer sheets from students.

However, based on requests from the students, the competent authority of the Council has decided to allow the candidates to file review of scores awarded to them with a view to ensure that no meritorious or deserving candidate is put to any inconvenience or deprived of justice due to technical glitches, if any.

Accordingly, interested candidates may apply for review of their scores of drawing papers by paying fees of Rs.750/-. The Process for the same shall be informed shortly on CoA & NATA Website.

Nata Drawing Papers Evaluation:

Parallel and Distributed Processing and Applications Jiannong Cao, Laurence T. Yang, Minyi Guo, Francis Lau, 2005-01-17 Welcome to the proceedings of the 2nd International Symposium on Parallel and Distributed Processing and Applications ISPA2004 which was held in Hong Kong China 13-15 December 2004. With the advance of computer networks and hardware technology, parallel and distributed processing has become a key technology which plays an important part in determining future research and development activities in many academic and industrial branches. It provides a means to solve computationally intensive problems by improving processing speed. It is also the only approach to building highly reliable and inherently distributed applications. ISPA2004 provided a forum for scientists and engineers in academia and industry to exchange and discuss their experiences, new ideas, research results, and applications about all aspects of parallel and distributed computing. There was a very large number of paper submissions: 361 from 26 countries and regions including not only Asia and the Pacific but also Europe and North America. All submissions were reviewed by at least three program or technical committee members or external reviewers. It was extremely difficult to select the presentations for the conference because there were so many excellent and interesting submissions. In order to allocate as many papers as possible and keep the high quality of the conference, we finally decided to accept 78 regular papers and 38 short papers for oral technical presentations. We believe that all of these papers and topics not only provide novel ideas, new results, work in progress, and state-of-the-art techniques in this field but also stimulate future research activities in the area of parallel and distributed computing with applications. *Parallel and Distributed Processing and Applications*, 2004

Parliamentary Papers Queensland. Parliament. Legislative Assembly, 1979. *Catalog of Federal Domestic Assistance*, 2011. Identifies and describes specific government assistance opportunities such as loans, grants, counseling, and procurement contracts available under many agencies and programs. *Research in Nursing, Midwifery and Allied Health: Evidence for Best Practice* Marilyn Richardson-Tench, Patricia Nicholson, Beverley Taylor, Stephen Kermode, 2018-01-01. Research in Nursing, Midwifery and Allied Health provides students with the theory to understanding research frameworks in nursing and allied health. Using practical examples, this text applies the theory to practice in a number of updated cases that reflect students across the nursing, midwifery, and allied health areas. The research framework introduced in the book has three different intersecting purposes: i) to show students how to critically appraise existing research; ii) to show students how the results of research can be used in clinical practice to inform patient care; iii) to conduct their own research. The sixth edition includes more content than ever before, linking research to evidence-based practice helpfully signposted throughout the text in new evidence-based practice boxes. Research in Nursing, Midwifery and Allied Health supports instructors as they guide new nursing researchers through the entire research process in a practical and easy-to-read step-by-step guide. The new four-colour design will be a welcome addition to Cengage's suite of Nursing texts, as well as new CourseMate Express.
