- Forensics= "debating" (not the same as forensic science)
- Before the last 30 year it has served to confirm identifications and the nature of well-defined evidence items.
- Computerized databases are the largest factor that has changed the need for forensic science.
  - Began with the development of automated identification systems.
- Fingerprint identification systems were initially private but became a gov't sponsored activity.
  - Systems can make use of 10-print fingerprint cards and latent fingerprints
- All states have access to fingerprint database and are interconnected through the federal system.

  - Elements are things that prosecutor is obligated to prove beyond reasonable doubt to gain conviction
  - Must prove all required elements of crime
