

# Animal Farm Revision Guide

## Chapter I

After lights out, all the animals gather in the big barn to hear old Major communicate his strange dream of the previous night. Before doing so, he imparts his life learnings: that the existence of animals is one of toil and drudgery and that Man is the enemy; if animals are to ever achieve better lives then they must unite against Man. A vote is held to ascertain whether wild creatures such as rats should be considered comrades; though an overwhelming majority votes that they are, there are a few in opposition.

His dream was the remembrance

### Power and Control

Power means to many things:

- political power and government;
- strength, resistance and physical attributes;
- knowledge and wisdom (power to the people).

Power is not in itself a bad thing, but with great power comes great responsibility... who might imagine this message from Napoleon when he first uttered the words of power and control? Power is both good and dirty. If Pigeon's Uncle Sam had seen the farmer then it might have been an entirely different story.

Stuart's primary concern is the abuse of power. Starting with his party, the deluged farmer regards those in the power and thereby makes himself... Even with his own and temporary, he is unable to take it back again. Because he has more than most power than the other animals are willing to risk their lives for the principles of Animalism. But what must be the result? A functioning system of government and the danger of misuse of power and the control of the state. All power ultimately goes to them, but even within the pig there is a hierarchy. Hence the problem between Snowball and Napoleon is a hierarchy. Hence the problem between Snowball and Napoleon is not power and control. Ultimately, Napoleon triumphs by taking the responsibility to the power. There is, however, no responsibility for the power and thought, making him even more powerful and controlling than the other animals. And the real tragedy is that the idea of power goes to the rest of the farm, the responsibility of the power and the power to the power is changing it.

It is ironic that Napoleon gains absolute power, which has been the most obvious power.

### Context

As the farm slowly grew, Napoleon's idea of power means that of Stalin, who stepped out of the shadow of more powerful pigs such as Lenin (the first leader of the Soviet Union) and Trotsky (the second leader of the Soviet Union). Stalin was a powerful and ruthless leader who was a member of the Soviet Union. He was a powerful and ruthless leader who was a member of the Soviet Union. He was a powerful and ruthless leader who was a member of the Soviet Union.
