

Franz Kafka's *The Metamorphosis* Study Guide Questions

The Metamorphosis is a complex, multi-layered short story of one man's transformation into a "monstrous vermin." To fully understand and analyze this piece of literature, close reading and interpretation are necessary. Answer the following questions based on your reading, being careful to elaborate and provide specific support where needed.

1. By examining the description and details of Gregor's room on page three, what might you surmise about his personality? Take into consideration the items he notices as he looks around the room, as well as those items notably missing from a "regular" human room.
2. After a few moments of realization, Gregor comments, "How about going back to sleep for a few minutes and forgetting this nonsense." Is this a logical response, considering his current condition? Is this response similar to one you might make in an unimaginable, but similar situation?
3. On page four, immediately following an unsuccessful attempt at falling back to sleep, Gregor changes his focus entirely. What new topic does he seem to dwell upon? Do you find this sudden change in focus awkward? Could there be a connection between his physical transformation and his discussion of work? Explain.
4. Closely examine Gregor's complaints about his work. What major problems does he encounter while employed as a salesman? Are these significant grievances or just the ordinary complaints of a whining young man?
5. At the top of page four, Gregor attempts to touch an itchy spot on his belly, "studded with white dots." Why do you think he shivers upon touching this area? By page five of the short story, have you come to a conclusion about whether or not Gregor has been "physically" or literally transformed into a bug? Cite brief evidence supporting either position, or give conflicting support if you have not yet reached a decision on this central idea.
6. Through page five, what have we learned of Gregor Samsa's family? What role does he perform for them? Why does he say he must work so hard at a job he seems to hate so much?
7. On page five, Gregor is in a rush to get up in time for the seven o' clock train. He comments, "...he himself did not feel especially fresh and ready to march around." What do you think of this statement? Is it ironic? Humorous? Explain.
8. On page five, Gregor describes himself as "a tool of the boss, without brains or backbone." How is this statement ironic and particularly significant considering Gregor's present state?
9. Why do you think that Gregor does not seem to take his apparent transformation seriously? In fact, beyond the opening statement and descriptions at the start of the story, Gregor seems to barely mention his current appearance. Could this be proof that he is not literally a large beetle? Explain.
10. When Gregor's mother knocks on the door to his room, Gregor answers her inquiry. What has happened to his voice? What does this change signify?
11. Describe how each of Gregor's family members reacts to his being late to work. What do their reactions say about their personalities and even how they behave toward Gregor?
12. In reviewing pages 21-26, what evidence can you find that Gregor's metamorphosis is ongoing? How is he learning to acclimate to his new "form?"

Reading Belinda Jack, 2019-04-08 Today many people take reading for granted but we remain some way off from attaining literacy for the global human population And whilst we think we know what reading is it remains in many ways a mysterious process or set of processes The effects of reading are myriad it can be informative distracting moving erotically arousing politically motivating spiritual and much much more At different times and in different places reading means different things In this Very Short Introduction Belinda Jack explores the fascinating history of literacy and the opportunities reading opens For much of human history reading was the preserve of the elite and most reading meant being read to Innovations in printing paper making and transport combined with the rise of public education from the late eighteenth century on brought a dramatic rise in literacy in many parts of the world Established links

between a nation's levels of literacy and its economy led to the promotion of reading for political ends. But equally reading has been associated with subversive ideas leading to censorship through multiple channels: denying access to education, controlling publishing, destroying libraries and even the burning of authors and their works. Indeed the works of Voltaire were so often burned that an enterprising Parisian publisher produced a fire proof edition decorated with a phoenix. But as Jack demonstrates reading is a collaborative act between an author and a reader and one which can never be wholly controlled. Telling the story of reading from the ancient world to digital reading and restrictions today, Belinda Jack explores why it is such an important aspect of our society.

Explorations in Latin Literature: Volume 2, Elegy, Lyric and Other Topics Denis Feeney, 2021-08-19 Denis Feeney is one of the most distinguished scholars of Latin literature and Roman culture in the world of the last half century. These two volumes conveniently collect and present afresh all his major papers covering a wide range of topics and interests. Ancient epic is a major focus followed by Latin lyric, historiography and elegy. Ancient literary criticism and the technology of the book are recurrent themes. Many papers address the problems of literary responses to religion and ritual with an interdisciplinary methodology drawing on comparative anthropology and religion. The transition from Republic to Empire and the emergence of the Augustan principate form the background to the majority of the papers and the question of how literary texts are to be read in historical context is addressed throughout. All quotations from ancient and modern languages have now been translated and Stephen Hinds has contributed a foreword.
