 arranging or performing The Score Society of Composers and Lyricists A myriad of practical information Comprehensive ear  
 training important because aural skills are among the most overlooked in music education Survey of New Teaching Materials  
 Jazz Educators journal A synthesis of the author's vast knowledge and his quest to define the question How do we hear ITG  
 Journal A wonderfully systematic approach to ear training neatly designed and structured it just flows Direct and easily  
 understood New books Jazz Educators Journal Bernard Brandt says Hearing and Writing Music by Ron Gorow is a superb  
 book It makes a simple and elegant presentation of the internal process by which we hear sounds and music how we  
 recognize intervals chords melody harmony counterpoint and the timbre of instrumentation orchestration how we can  
 develop the skills of listening auditory memory and imagination and how to use these skills to hear and to write down music  
 of any sort The hallmark of an expert is the ability to explain the basics of his field as simply as possible By that standard Mr  
 Gorow has proven his expertise in this book I note that the other reviews both for Amazon and in musical journals tend to  
 limit the importance of Hearing and Writing Music to ear training I believe that Mr Gorow's book is valuable for much more  
 than ear training I have studied it and as a result of that study I believe that my auditory memory and imagination and my  
 abilities in score reading have improved enormously Further I have been able to use the skills in this book to transcribe  
 melodies harmonies and counterpoint almost effortlessly both those that I have heard and those which existed only in my  
 imagination This book has opened many doors for me I believe that it can do so for many others *Shakin' It Up!*, 2000-04 If
