Resources in Spanish to accompany McDougal Littell geometry Resources in education, 1986-06 **Researching IT in Education** Anne McDougall, John Murnane, Anthony Jones, Nick Reynolds, 2010-01-21

Serious criticisms of research on IT in education have been published recently in both the UK and the USA. Researching IT in Education aims to provoke thought and discussion among practising researchers by considering a range of approaches to undertaking quality research. Establishing priorities and directions for future research in the sub discipline of IT in education the book is structured around five foci: theory, history, research, directions, methodology, research topics. This book argues for the enormous power of IT to enable fundamental research that both refines and develops theory and practice in education. High quality research that advances knowledge and educational practice in this area will generally require longer timelines and more complex data collection and analysis methods. The authors draw attention to the value of theoretical frameworks used in mainstream educational research and highlight the early theoretical work on the subject of IT in education. Researching IT in Education is the only book in its area to focus on methodological and research design issues. The individual chapters are contributed by expert researchers and leaders in the field from ten countries thus providing an unusually broad but coherent international set of perspectives for the issues examined in the book. This book will benefit anyone interested in or undertaking research on IT in education including academics, research students, teachers and policy makers.

Mathematics Teaching in the Middle School, 2004 *African American Civil Rights in the Age of Obama* Harold McDougall, 2010

AFRICAN AMERICAN CIVIL RIGHTS IN THE AGE OF OBAMA: A HISTORY AND A HANDBOOK by Prof Harold McDougall of the Howard University School of Law is a look at some of the remaining trouble spots in black white relations in the United States today with the benefit of the Obama Administration's first year in office as a backdrop. The book begins with racial profiling, a topic particularly charged as a consequence of Harvard professor Henry Louis Gates' arrest in his own home for disorderly conduct by Cambridge Massachusetts police. Other trouble spots include hate crimes, discrimination against consumers, employment discrimination, voting rights, housing discrimination and discrimination in public education.
