Topics in the Foundations of General Relativity and Newtonian Gravitation Theory David B. Malament, 2012-05-07 In *Topics in the Foundations of General Relativity and Newtonian Gravitation Theory* David B Malament presents the basic logical mathematical structure of general relativity and considers a number of special topics concerning the foundations of general relativity and its relation to Newtonian gravitation theory These special topics include the geometrized formulation of Newtonian theory also known as Newton Cartan theory the concept of rotation in general relativity and G del spacetime One of the highlights of the book is a no go theorem that can be understood to show that there is no criterion of orbital rotation in general relativity that fully answers to our classical intuitions *Topics* is intended for both students and researchers in mathematical physics and philosophy of science
