Interiors Clive Edwards, 2023-12-05 This volume of primary source materials documents the nineteenth century search for a representative style and the alternating fashions for interiors that demonstrated the consumerism of the period Although in some senses every interior is unique so that a style canon may seem to be meaningless there have been important historical trends or styles that have influenced individual interiors and these have formed the groundwork from which other styles and tastes have developed and changed Accompanied by extensive editorial commentary this collection will be of great interest to students and scholars of art history *Interior Design Masters* Mark Hinchman, Elyssa Yoneda, 2018-06-27 Interior Design Masters contains 300 biographical entries of people who have significantly impacted design They are the people historical and contemporary that students and practitioners should know Coverage starts in the late Renaissance with a focus on the twentieth and twenty first centuries The book has five sections with the entries alphabetical in each so it can serve as a history textbook and a reference guide The seventeenth and eighteenth century section covers figures from Thomas Chippendale to Horace Walpole The nineteenth century section includes William Morris and Candace Wheeler The early twentieth century section presents modernism s design heroes including Marcel Breuer Eileen Gray and Gilbert Rohde The post World War II designers range from Madeleine Castaing to Raymond Loewy The final contemporary section includes Ron Arad and the Bouroullec brothers These are the canonical figures who belong to any design history The book also contains less well known figures who deserve attention such as Betty Joel the British art deco furniture designer Paul Veyseyre the Frenchman active in China in the 1930s and more recently Lanzavecchia Wai the Italian Singaporean duo whose work ranges from health care to helicopters Global in its coverage the book is richly illustrated with over 600 black and white and color photographs *"Craft, Space and Interior Design, 1855?005 "* Sandra Alföldy, 2017-07-05 Constructed space is defined by its shape by the materials with which it is enclosed and by the objects that are placed within or decorate its exterior or interior The interaction of these crafted objects or decorated surfaces with space provides viewers or inhabitants with visual clues about the environment as well as visual cues about decorum viewers can know what kind of behaviour is expected and what the space means Furnishings and dress textile panels and clay pots stained glass and gesso panels all defined as craft or decorative art give architectural space defined as high art its character without craft architecture is empty and devoid of
