Monk Levelling Guide:

Leveling the Playing Field David Marc, 2015-07-22 *Leveling the Playing Field* tells the story of the African American members of the 1969-70 Syracuse University football team who petitioned for racial equality on their team. The petition had four demands: access to the same academic tutoring made available to their white teammates, better medical care for all team members, starting assignments based on merit rather than race, and a discernible effort to racially integrate the coaching staff, which had been all white since 1898. The players' charges of racial disparity were fiercely contested by many of the white players on the team, and the debate spilled into the newspapers and drew protests from around the country. Mistakenly called the Syracuse 8 by media reports in the 1970s, the nine players who signed the petition did not receive a response, allowing or even acknowledging their demands. They boycotted the spring 1970 practice, and Coach Ben Schwartzwalder, a deeply beloved figure on campus and a Hall of Fame football coach nearing retirement, banned seven of the players from the team. As tensions escalated, white players staged a day-long walkout in support of the coaching staff, and an enhanced police presence was required at home games. Extensive interviews with each player offer a firsthand account of their decision to stand their ground while knowing it would jeopardize their professional football career. They discuss with candor the ways in which the boycott profoundly changed the course of their lives. In *Leveling the Playing Field*, Marc chronicles this contentious moment in Syracuse University's history and tells the story through the eyes of the players who demanded change for themselves and for those who would follow them.

power at the local level where destruction of books and libraries is employed as a tactic of political or ethnic protest Part II discusses the aftermath of power struggles in Germany Afghanistan and Cambodia where the winners were utopians who purged libraries in efforts to purify their societies and maintain power Part III examines the fate of libraries when there is war and a resulting power vacuum The book concludes with a discussion of the events in Iraq in 2003 and the responsibility of American war strategists for the widespread pillaging that ensued after the toppling of Saddam Hussein This case poignantly demonstrates the ease with which an oppressed people given the collapse of civil restraints may claim freedom as license for anarchy construing it as the right to prevail while ignoring its implicit mandate of social responsibility Using military might to enforce ideals in this case democracy and freedom is futile Knuth argues if insufficient consideration is given to humanitarian security and cultural concerns
