### **Codification, Macaulay and the Indian Penal Code** Barry Wright, 2016-05-23

Enacted in 1860, the Indian Penal Code is the longest serving and one of the most influential criminal codes in the common law world. This book commemorates its one hundred and fiftieth anniversary and honours the law reform legacy of Thomas Macaulay, the principal drafter of the Code. The book comprises chapters which examine the general principles of criminal responsibility from the perspective of Macaulay and from more recent accounts by lawmakers and reformers. These are framed by chapters that examine the history and conceptual underpinnings of Macaulay's Code, consider the need to revitalize the Indian Penal Code, and review the current challenges of principled criminal law reform and codification. This book is a valuable reference on the Indian Penal Code and current debates about general principles of criminal law for legal academics, judges, legal practitioners, and criminal law reformers. It also promises to have wider scholarly appeal of interest to legal theorists, historians, and policy specialists.

### *Mexican Natural Resources Management and Biodiversity Conservation*

Alfredo Ortega-Rubio, 2018-07-20 This book presents valuable and recent lessons learned regarding the links between natural resources management from a Socio-Ecological perspective and the biodiversity conservation in Mexico. It addresses the political and social aspects as well as the biological and ecological factors involved in natural resources management and their impacts on biodiversity conservation. It is a useful resource for researchers and professionals around the globe but especially those in Latin American countries which are grappling with the same Bio-Cultural heritage conservation issues.
