

Video provides a powerful way to help you prove your point. When you click Online Video, you can just click the video icon for the video you want to use. You can also type a keyword to search for the video that best fits your needs.

To make your document look professionally designed, Word offers more than 100 themes. To test how a theme looks, click on a theme in the Themes gallery. To change the theme, click the test button in the gallery. To compare two themes, click the Compare button. To change the cover, the header, and sidebar, click Insert and then choose the elements you want from the different galleries.

Themes and styles also help keep your document coordinated. When you click Design and choose a new Theme, the pictures, charts, and SmartArt graphics change to match your new theme. When you apply a new style, your text changes to match the new theme.

Save your work with the Save button that shows up where you need them. To change the way a picture fits into your document, click the Picture Tools ribbon and a button for layout options appears next to it. When you work on a table, the table ribbon shows up and you can add a row or a column, and then click the plus sign.

Reading is easier, too, in the new Reading view. You can collapse parts of the document and focus on the text you want. If you need to stop reading before you reach the end, Word remembers where you left off - even on another device.
