How Not To Do Things:

How to Do Things with Pornography Nancy Bauer, 2015-04-06 In Nancy Bauer's view most feminist philosophers are content to work within theoretical frameworks that are false to human beings everyday experiences Here she models a new way to write about pornography women's self objectification hook up culture and other contemporary phenomena and in doing so she raises basic questions about philosophy

How To Do Things You Hate Peter Hollins, 2023-08-30 Doing things you hate is a skill And it's a skill that is always in high demand Look you can teach hard skills You can teach a monkey to do lots of things that humans can do But you can't force them to work without a monkey revolt on your hands All growth comes from discomfort and the ability to push through How To Do Things You Hate is a primer on how you can embody the self discipline to live the life you want It's not easy otherwise everyone would be there It requires surmounting boulders crossing oceans and not a small amount of pain It's always worth it but are you able to get there Are you tough enough Can you find the motivation inside you somewhere Are you able to taking it on the chin After this book you will be able to resoundingly say YES Self discipline and willpower are the best habits because everything can stack on them Peter Hollins has studied psychology and peak human performance for over a dozen years and is a bestselling author He has worked with a multitude of individuals to unlock their potential and path towards success His writing draws on his academic coaching and research experience Not just more productivity but you'll start to notice that your to do list will always be DONE Diagnose and understand the exact type of laziness problem you have and why your butt is always glued to the couch The value of discomfort and how to love it with daily exercises and practices that make you absolutely monk like The incredibly valuable 90 second rule of emotional volatility and self mastery The doom loop of procrastination and how you are probably caught in it right now every day How you should approach your daily tasks like a pro athlete with daily routines and activation modes

Good Things to Do Rüdiger Bittner, 2023 Rüdiger Bittner argues that the aim of thinking about what to do of practical reason is to find not what we ought to do but what it is good to do under the circumstances Neither under prudence nor under morality are there things we ought to do There is no warrant for the idea of our being required by natural law or by our rationality to do either what helps us attain our ends or what is right for moral reasons While common moral understanding is committed to there being things we ought to do and to our being guilty and deserving blame if we fail to do them we can lay aside these notions without loss indeed with benefit The volume also explains what it is for something to be good to do under the circumstances and argues for understanding practical reason in these terms What is good to do we find by experience what we go through teaches us what helps and what hinders and helps us figure out what is prudentially useful and what is morally right to do although ultimately this difference itself gives way and morality turns out to be a part of prudence

Doing Things for Reasons Rüdiger Bittner, 2001 People do things for reasons but what are reasons and how are they related to the resulting actions Bittner explores this question and proposes an answer a reason is a response to that

state of affairs **How to Do Things with Emotions** Owen Flanagan, 2023-04-04 The world today seems full of anger In the West particularly in the US and UK this anger can oftentimes feel aimless a possible product of social media Still anger is normally considered a useful motivational source for positive social change Channeling that anger into movements for civil rights alleviation of socio economic inequality and the end of endless wars has long been understood as a valuable tactic Moreover anger is believed to be handy in everyday life in order to protect and stick up for oneself On the flip side the world today celebrates diminishing amounts of shame Political leaders and pundits shamelessly abandon commitments to integrity truth and decency and in general shame is considered to be a primitive ugly emotion which causes eating disorders PTSD teenage pregnancy suicide and other highly undesirable circumstances Having shame is thus regularly understood as both psychologically bad and morally bad In *How to Do Things with Emotions* philosopher Owen Flanagan argues this thinking is backwards and that we need to tune down anger and tune up shame By examining cross cultural resources Flanagan demonstrates how certain kinds of anger are destructive while a mature sense of shame can be used as it is in many cultures as a socializing emotion that does not need to be attached to the self but can be called upon to protect good values kindness truth rather than bad ones racism sexism Drawing from Stoic Buddhist and other cultural traditions Flanagan explains that payback anger i e revenge and pain passing anger i e passing hurt one is feeling to someone else are incorrigible and also how the Western view of shame rooted in traditions of psychoanalysis is entirely unwarranted Continuing his method of doing ethics by bringing in cross cultural philosophy research from psychology and in this case widening that to include cultural psychology and anthropology Flanagan shows exactly how our culture shapes our emotions through norms and traditions and how proper cultivation of our emotions can yield important progress in our morality *How to Do Things with Corpora* Torsten Leuschner, Anaïs Vajnovszki, Gauthier Delaby, Jóhanna Barðdal, 2025-05-05 Along with a renewed interest in the empirical foundations of linguistics the increasing accessibility of large scale corpora has sparked a surge of corpus linguistic work on the grammar of natural languages Corpus based methods enhance our knowledge and understanding of individual languages and they are theoretically significant because they allow us to test complex hypotheses on empirical and reproducible data Spread over six thematic sections the fifteen case studies in this book reflect on how methodological challenges and decisions affect the corpus based analysis of grammatical patterns They cover a wide variety of phenomena syntax registers learner language morphology productivity multilingualism under different frameworks including construction grammar discourse analysis and generative grammar The contributors discuss the respective methodological and theoretical issues proposing innovative solutions for linguistics in the 21st century *The Works of Aurelius Augustine: Letters. v. 1.
