Internal Control Contributions To Management Science:

Internal Control Olof Arwinge,2012-11-07 The concept of internal control has developed along with audit practice As demands have been made for greater accountability in corporate governance the significance of internal control systems in companies has increased Traditionally internal control has had a fairly direct relationship to financial reporting quality but wider approaches to internal control have expanded those boundaries much further Stakeholders are increasingly concerned with the effectiveness of internal controls and disclosure requirements are making firms to go public with regard to their internal control systems From a design perspective current research suggests that internal control designs are contingent upon variables such as company strategies risk appetite regulatory characteristics and organizational size Also there is much to learn about internal control quality and the way internal control quality is associated with overall corporate governance quality This book fills that gap

Principles of Financial Control in the Public Sector Nedyalkova, Plamena Georgieva,2023-06-01 Principles of Financial Control in the Public Sector delves into the compliance and implementation of control principles by control institutions in the public sector The book uses examples from control practice to highlight the problems and weaknesses of financial control bodies resulting from their irregular action and influence The Public Financial Inspection Agency PFIA in Bulgaria serves as a case study and proposes a methodology for ensuring the quality implementation of financial control principles during inspections The book presents current issues in the field of financial control which are of interest to a wide range of readers The book s research methodology covers the stages for implementation of financial control principles and their application in the control technology and process The empirical part of the book uses information from 2 450 reports on financial inspections by PFIA from 2007 to 2011 annual reports on the activity of PFIA from 2007 to 2011 and 2019 to 2022 and research results by various NGOs in the field of financial control such as the Center for Study of Democracy and the Association for Combating Economic Fraud It is suitable for students practitioners senior officials academics auditors accountants financiers and business owners who have continuous contact with state offices and administration

Managing Organizational Culture for Effective Internal Control Jan A. Pfister,2009-07-07 In times of economic and financial crises the content of this book rings true Drawing from interviews with executives senior managers and or auditors from renowned companies eBay Google Hewlett Packard Intel Levi Strauss Co Microsoft Novartis and many others and theory from fields of sociology and social psychology this research study provides an understanding of how tone at the top imprints on an organization and why that imprint works More specifically it discusses how managers principles and practices can actively shape an open minded culture that enhances effective internal control

Financial Accounting and Management Control Fredrik Nilsson,Anna-Karin Stockenstrand,2015-02-20 This book is about financial accounting and management control and how these two information systems are related as well as how their objectives conflict At the most fundamental level the objective of financial accounting is to provide owners and funders with

comparable information on a company's value creation. The aim of management control on the other hand is to give the board, senior executives and employees unique information for strategy formulation and implementation. One often mentioned negative effect is the risk of financial accounting affecting management control design and use, making it less relevant for decision making at the company level. The book provides an analysis of the complex relationship between financial accounting and management control. The analysis is based on theoretical reasoning as well as several examples of how financial accounting standards affect not only the annual report but also the control system. An interesting and perhaps unexpected conclusion is that management control seems to affect financial accounting almost as much as financial accounting affects management control. These complex relationships which can influence the design and use of both financial accounting and management control are discussed in detail in this book.

FUND MANAGEMENT PRACTICES IN NON-GOVERNMENTAL ORGANIZATIONS Dr. N. VISWANADHAM, B. MGANILWA, 2019-04-03

Fund management is a critical function in organizations' success. As a result, organizations that manage their finances well have higher chances of success. Zietlow et al (2007) contend that fund management is more than just keeping accurate accounting records. It involves planning, controlling and monitoring of financial resources to achieve organizational objectives. System of fund management should ensure that costs are properly categorized, tracked and charged to the appropriate accounts and therefore managers are required to report financial information accurately to the board, donors and government. Yet, fund management provides a financial framework for efficient management of NGO resources.

The Evolution of Corporate Disclosure Alessandro Ghio, Roberto Verona, 2020-04-02 This book provides a critical analysis of the evolution of corporate disclosure. Building upon prior academic literature, it assesses the most important changes in mandatory corporate disclosure, the growing relevance of social and environmental disclosure and revolutionary new forms of corporate communication in particular social media. It also includes empirical analyses that shed further light on the impact of voluntary communication in social and environmental reporting and corporate social media communication on managerial and investment decisions. Lastly, it discusses new directions for accounting and corporate governance research on the theoretical and empirical challenges of corporate disclosure. Offering a wealth of relevant and timely advice, the book will help regulators design policies that allow businesses to overcome current and emerging economic, social and technological challenges.

Internal Control Systems and the Performance of Agricultural Small Medium Enterprises in Eastern Uganda. A Case Of Mbale District Aimable Ineza, 2018-10-26 Master s Thesis from the year 2016 in the subject Agrarian Studies grade 75% Uganda Management Institute course Business Administration Master s language English abstract This study aimed at establishing the contribution of internal control systems towards the performance of agricultural SMEs in Eastern Uganda with a case study of SMEs in Mbale district The study objectives were i To examine the extent to which assets controls predict the performance of agricultural SMEs in Mbale district ii To establish the extent to which financial controls predict the performance of agricultural SMEs in Mbale district iii To assess the extent to which compliance controls predict the performance of agricultural SMEs in Mbale district The study was conducted through a case study on agricultural SMEs in Mbale District The results of multiple regression analysis between assets control and SME

performance noted an adjusted R² value of 0.194 implying that generally 19% of total variability in SME performance is explained by assets control mechanisms while the analysis between financial control and SME performance showed an adjusted R² value of 0.097 implying that generally 9.7% of total variability in SME performance is explained by financial control mechanisms and an adjusted R² value of 0.131 between compliance control and SME performance implying that generally 13.1% of total variability in SME performance is explained by compliance control mechanisms. The conclusion was that generally there is a weak positive correlation between internal control systems and the performance of Agricultural SMEs in Eastern Uganda. The weak prediction reflects the reality that there were other factors that influenced the performance of agricultural SMEs in Eastern Uganda. The study recommends additional research on the relationship between Informational Technology, agricultural mechanization, stability and availability of markets, participative management and agricultural SME performance.
