Everfi Modules 9:

Financial Education in U.S. State Colleges and Universities Donna E. Danns, 2015-11-28 This book addresses the uncertain state of financial literacy among today's college students and examines steps colleges and universities are taking to address this widespread concern. This work introduces a four-fold typology of organizational models for college-based financial education programs and uses these as optics for grouping and presenting case studies. The case studies presented provide a holistic representation of how universities develop, sustain, and grow financial education programs. Details on the nature of programs, goals, administrative support, resources, partnerships, scale of operations, program content, and delivery, advertising, evaluation, program spinoffs, and much more are captured in this work. In addition to detailed case studies, this book presents general findings on the availability of and delivery modes for college-based financial education. This work has significant utility for universities and colleges seeking to implement new financial education programs, changing existing programs, improving program relevancy, or expanding program delivery on campus. It is an important contribution to the experiential understanding on how college students as consumers can acquire financial education as part of their broader college curricula and be able to better manage their financial lives. Included in the coverage: The financial literacy imperative, Program delivery and organizational models in state colleges and universities, The academic model, The full-fledged money management center, The aspirational seed program, The branch interspersed model. As financial literacy is increasingly recognized as a core life skill, it becomes more crucial as a component of higher education. *Personal Financial Education in State Colleges and Universities in the U.S.* is salient reading for college and university administrators, researchers, social workers, and mental health professionals working with college students, policy analysts, and faculty from any discipline interested in promoting the financial literacy of their students.

College Student Alcohol Abuse Christopher J.

Correia, James G. Murphy, Nancy P. Barnett, 2012-09-14 Essential evidence-based strategies for the prevention and reduction of alcohol abuse among college students. With contributions from notable substance abuse researchers, this practical guide presents clear strategies for prevention of and interventions for alcohol abuse in the college-age population. Ranging from community-based prevention programs to individual motivational and interview-based approaches, *College Student Alcohol Abuse* explores the leading theories used to conceptualize college student drinking and related problems with an emphasis on the clinical implications of each perspective. Epidemiology of student drug use, including illicit drugs and nonmedical use of prescription drugs. The spectrum of empirically supported prevention programs with a focus on best practices and materials. How to conduct assessments and create intervention programs for students with substance abuse problems. A must-have resource for every college administrator, resident staff member, and addiction counselor who works with this unique population. *College Student Alcohol Abuse* translates the latest research findings and interventions into clear, evidence-based strategies for assessing and treating college students who are abusing alcohol.

Quality Assessment and

Enhancement in Higher Education in Africa Peter Neema-Abooki, 2022-12-16 This book explores quality assessment and enhancement in higher education in Africa to illustrate the need to develop quality practices in measuring effective education and continually search for permanent improvement. The book demonstrates that technological and socio-economic trends, innovations and inventions of the twenty-first century demand that additional attention be placed upon education for national, regional and international development. Since conventions for quality assessment and enhancement need to be defined and systematic structures constructed to develop quality practices, the book shows how quality in higher education within Africa has been established and advanced to provide a framework for monitoring, auditing and reviewing assessment and enhancement. Though the book considers African complexities and diversity, it incorporates global trends and utilises an international focus that enables readers to devise appropriate strategies for developing and enhancing quality and standards in higher education in both continental Africa and beyond. Illustrating why quality assessment and enhancement should be embraced in all aspects including inputs, processes, outputs and outcomes in educational settings globally, this book will be of interest to policymakers and scholars in the fields of Higher Education Quality and Global Studies, African Education, African Studies and Management and Administration, Leadership and Professional Development Studies. **Microsoft Office 2003 for Windows** Steve Sagman, Stephen W. Sagman, 2004 Office 2003 for Windows gets readers quickly up to speed on all of the suite's new features so that they can do their best work without getting slowed down by the software. Uses clear step-by-step instructions illustrated with hundreds of helpful screenshots.
