2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do

Physics for You Keith Johnson, 2001 The most popular series for GCSE has been updated to offer comprehensive coverage of the revised GCSE specifications Physics for You has been

updated in line with the revised National Curriculum requirements Debates in Mathematics Education Dawn Leslie, Heather Mendick, 2013-10-01 *Debates in Mathematics Education* explores the major issues that mathematics teachers encounter in their daily lives It engages with established and contemporary debates promotes and supports critical reflection and aims to stimulate both novice and experienced teachers to reach informed judgements and argue their point of view with deeper theoretical knowledge and understanding Written by experts in the field of mathematics education it investigates and offers fresh insight into topics of central importance including Gender social inequality and mathematics Mathematics politics and climate change The history and culture of mathematics Using popular culture in the mathematics classroom The concept of ability and its impact on learning What we mean by teaching for understanding Choosing and using examples in teaching The fitness of formal examinations Designed to stimulate discussion and support you in your own research writing and practice *Debates in Mathematics Education* will be a valuable resource for any student or practising teacher engaged in initial teacher training continuing professional development or Masters level study It also has much to offer to those leading initial teacher education programmes and to beginning doctoral students looking for a survey of the field of mathematics education research **AQA GCSE 9-1 Food Preparation and Nutrition All-in-One Complete Revision and Practice: For the 2020 Autumn & 2021 Summer Exams (Collins GCSE Grade 9-1 Revision)** Collins GCSE, Fiona Balding, Kath Callaghan, Suzanne Gray, Barbara Monks, Barbara Rathmill, 2020-09-01 Exam Board AQA Level GCSE 9 1 Subject Food preparation and nutrition First Teaching September 2016 First Exams June 2018 Suitable for the 2020 autumn and 2021 summer exams *Collins GCSE 9-1 Revision - GCSE 9-1 English Language and English Literature All-in-One Revision and Practice: Ideal for the 2024 and 2025 exams* Collins GCSE, 2020-09-01 Exam Board Edexcel AQA OCR WJEC Eduqas Level GCSE 9 1 Subject English First Teaching September 2015 First Exams June 2017 Suitable for the 2020 autumn and 2021 summer exams *The administration of examinations for 15-19 year olds in England* Great Britain: Parliament: House of Commons: Education Committee, 2012-07-03 This report from the Education Committee looks at the administration of examinations for 15 19 year olds in England The Committee expresses serious concerns about incentives in the exam system and about competition on syllabus content Incentives in the system should be changed so the downward pressure through the competition of exam boards is mitigated The Committee considers a number of options to change incentives including i A single board This offers a simpler system with no risk of competition but the Committee believes the cost risk and disruption outweigh the benefits ii Franchising of subjects to exam boards This removes syllabus competition but again has downsides 3 Or the current system of multiple boards The Committee sees no benefit in competition on syllabus content but the setting and marking of exams and associated administration if properly regulated could generate incentives and drive quality up offering value for money to schools and colleges The Committee also recommends the development of national syllabuses accredited by Ofqual The syllabuses would be developed by exam boards in conjunction with learned bodies and employer

organisations and could therefore retain the benefits of competition on quality and the incentive for exam boards to innovate

Forward with Classics Arlene Holmes-Henderson, Steven Hunt, Mai Musié, 2018-08-09 Despite their removal from England's National Curriculum in 1988 and claims of elitism Latin and Greek are increasingly re entering the mainstream educational arena Since 2012 there have been more students in state maintained schools in England studying classical subjects than in independent schools and the number of schools offering Classics continues to rise in the state maintained sector The teaching and learning of Latin and Greek is not however confined to the classroom community based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends in universities as part of outreach and even in parks and in prisons This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century The role of classical languages within the English educational policy landscape is examined as new possibilities exist for introducing Latin and Greek into school curricula The state of Classics education internationally is also investigated with case studies presenting the status quo in policy and practice from Australasia North America the rest of Europe and worldwide The priorities for the future of Classics education in these diverse locations are compared and contrasted by the editors who conjecture what strategies are conducive to success

GCSE Science Graham Hill, 1997 Intended for achieving examination success this series replaces the former GCSE Study Guides This book which are part of the new Revise GCSE series offers complete study and reference support for the Science GCSE course as well as being a revision guide for the Science GCSE examinations and Scottish Standard Grade It provides a breakdown of the syllabuses and exam structure for every exam board advice on studying revising coursework and exams topic by topic coverage clearly presented with many examples and diagrams quick tests for every topic to check progress and a bank of recent GCSE exam questions with answers to fine tune exam techniques Do It Yourself: GCSEs and A-Levels by Distance Learning Matthew J. Kraus, 2018-03-12 Most of use understand the benefits of getting a good education Not only can it open doors to university and better job prospects but can help to broaden an individual's outlook on life For some people however getting the right qualifications can be a real challenge especially if they aren't in mainstream education It's no wonder then that an increasing number of people are turning to distance learning or home education as their preferred way of passing exams This book focuses on GCSEs and A Levels the main school leaving qualifications that are universally

recognised in the UK It explains the main features of the qualifications how to study them and how to take the exams involved This book is intended to be used as a guide for prospective students who might want to undertake this form of learning but have some difficulty in working out where to start From GCSEs to EBCs Great Britain. Parliament. House of Commons. Education Committee,2013 The Government s plans for replacing GCSEs with new English Baccalaureate Certificates in some subjects is trying to do too much too fast Introducing several fundamental changes at the same time and to a tight timetable will jeopardise the quality of the reforms and may threaten the stability of the wider exam system GCSEs need significant improvements in order to restore public confidence in the exam system but the Government still needs to make the case that the GCSE brand is so discredited that it is beyond repair MPs are also concerned about the impact of the changes on subjects outside the English Baccalaureate where students will be taking GCSEs for some time to come according to the Government s plans The report also questions how well the Government s proposals will serve lower attaining pupils who are often the most disadvantaged There is no evidence that the proposed changes will help to tackle under achievement or narrow the attainment gap between the richest and poorest students any more effectively than GCSEs The Government is also called upon to re think its plans for a Statement of Achievement specifically for lower attaining pupils MPs agree that changes are needed to the way in which exams are run but they raise serious concerns about franchising subjects to exam boards The report is critical of the Government s decision to abolish some GCSEs before publishing the outcomes of the National Curriculum Review and its proposed changes to the school accountability system MPs also note the wide ranging stakeholder opposition to many of the Government s proposals **Learning to Teach History in the Secondary School** Terry Haydn,Alison Stephen,2021-11-22 In some hands history can be an inspirational and rewarding subject yet in others it can seem dry and of little relevance Learning to Teach History in the Secondary School now in its fifth edition and established as one of the leading texts for all history student teachers enables you to learn to teach history in a way that pupils will find interesting enjoyable and purposeful It incorporates a wide range of ideas about the teaching of history with practical suggestions for classroom practice The fifth edition has been thoroughly updated in the light of recent developments in the field of history education The book contains chapters on Purposes and benefits of school history Planning strategies Teaching approaches and methods Developing pupils historical understanding Ensuring inclusion New technologies in the history classroom Assessment and examinations Your own continuing professional development Each chapter includes suggestions for further reading weblinks to useful resources and a range of tasks enabling you to put learning into practice in the classroom Written by experts in the field Learning to Teach History in the Secondary School offers all training and newly qualified teachers comprehensive and accessible guidance to support the journey towards becoming an inspirational and engaging history teacher *The Forgotten Third: Do one third have to fail for two thirds to succeed?* Roy Blatchford,2020-06-19 The Forgotten Third is a provocative collection of essays which poses the fundamental

question Do a third of school students have to fail so that two thirds can pass Roy Blatchford has brought together a group of leading thinkers and influencers in UK education to address this question and pose some answers Featuring contributions from Caroline Barlow Geoff Barton Rebecca Boomer Clark Peter Collins Tim Coulson Kiran Gill Miranda Green Peter Hyman David Laws Rachel Macfarlane Rupert Moreton Harmer Parr Marc Rowland Catherine Sezen Richard Sheriff Nic Taylor Mullins and Iain Veitch The Forgotten Third challenges orthodoxies to shape a levelled up education system **Dyslexia**
