The ethnic people in Bangladesh hold a very important place in the culture of the country. The majority of these people live in the Chittagong Hill Tracts. The others live in the regions of Mymensingh, Rajshahi and Sylhet. They live in forest areas, in the hills and in rural areas. They practise Jhum cultivation. They clear a piece of land in the forest, prepare it and sow seeds in it. They are mostly farmers. By religion they are Hindus, Christians or Buddhists. They speak their own mother tongues. Some of them are the Chakmas, the Marmans, the Tipperas and the Moorangs who live in the Hill Tracts. The Santals live in Rajshahi. The Khasias and the Monipuries live in Sylhet and the Hajangs and the Garos in Mymensingh. Most of these ethnic people living in Bangladesh have some common characteristics. They have their own lifestyles. They build their houses on bamboo or wooden platforms called 'machang'. Rice is their staple food. They eat vegetables, maize and fish, poultry and meat. Their kitchen utensils are bamboo, wooden and earthen pots which they make themselves. Men wear lungis and women wear thamis or sarongs and angis. Women weave their own clothes.

Hunting and fishing are their favourite pastimes. They are fond of songs, music, dances, theatre and fair. Traditional musical instruments used are bugles made from buffalo horns, drums and bamboo flutes. Wrestling is a popular sport for them.

**United States. National Labor  
Relations Board**

### Jsc 2010 Board Question:

**Comparative Law Yearbook of International Business 2010** Dennis Campbell, 2010-11-01 This edition of the Comparative Law Yearbook of International Business provides a general examination of issues vital to the world's economic recovery. In the field of company law, practitioners examine changes in Russia's corporate law and the new Ukrainian law governing joint stock companies. In the area of competition law, lawyers review Serbia and Bulgaria's new laws on the protection of competition and the private enforcement of Articles 101 and 102 in Europe's national courts. Dispute resolution occupies two chapters: one dealing with best practices for drafting arbitration clauses and the other set aside recognition and enforcement of private commercial arbitration awards. A further two chapters treat employment and labor matters relating to distribution and commercial representation indemnity upon termination and processing personal data in the employment context of Hungary. In the area of financial services, practitioners from five jurisdictions deal with fiduciary duty, the European Commission's proposed Directive on Alternative Investment Fund Managers, Swiss disclosure rules on significant shareholdings, restructuring and refinancing routes for mortgage secured debt in Spain, and insurance laws and regulations in Nigeria. Foreign investment is examined by two authors reporting on 2008 and 2009 developments in investment treaty disputes and foreign investment in Indonesia. Intellectual property issues are reviewed in chapters relating to the use of intellectual property as collateral in secured financing and intellectual property licensing in Canada. Finally, lawyers treat a variety of other issues including the tax law of Liechtenstein, European Union-Israel trade in the automobile sector, insolvency risk and creditors' rights in Peru, the modernizing of trust law in Hong Kong, and bridging cultural differences in international Transactions. *The Chittagong University Journal of Science*, 2011

**Private International Law in Nigeria** Chukwuma Okoli, Richard Oppong, 2020-06-11 This book examines the rules, principles, and doctrines in Nigerian law for resolving cases involving cross-border issues. It is the first book-length treatise devoted to the full spectrum of private international law issues in Nigeria. As a result of increased international business transactions, trade, and investment with Nigeria, such cross-border issues are more prevalent than ever. The book provides an overview of the relevant body of Nigerian law with comparative perspectives from other legal systems. Drawing on over five hundred Nigerian cases, relevant statutes, and academic commentaries, this book examines jurisdiction in interstate and international disputes, choice of law, the enforcement of foreign judgments, and international arbitral awards, domestic remedies affecting foreign proceedings, and international judicial assistance in the service of legal processes and taking of evidence. Academics, researchers, and students, as well as judges, arbitrators, practitioners, and legislators alike, will find *Private International Law in Nigeria* an instructive and practical guide. *Decisions and Orders of the National Labor Relations Board*, United States, National Labor Relations Board, 2010-10

**Judicial Review of Administrative Action** Swati Jhaveri, Michael Ramsden, 2021-03-18 Explores the English origins of the principles of judicial review in common law jurisdictions and autochthonous pressures for their

adaptation      *International Practices to Promote Budget Literacy* Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process. It is comprised of two main parts: i a technical understanding of public budgets including familiarity with government spending, tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic, social and political implications of budget policies, the stakeholders involved and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply side actors in the budget process (governments) simplify and disseminate budget information for demand side actors (citizens), this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes, one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth, helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development, improvement or scaling up of budget literacy initiatives.

*Rocket Age* George D. Morgan, 2020-06-09 *Rocket Age* traces the history of spaceflight innovation from Robert Goddard's early experiments with liquid fuel rockets through World War II and the work of Wernher von Braun and his German engineers on to the postwar improvements made by Sergei Korolev and his team in the Soviet Union and culminating with the historic Moon walk made by Neil Armstrong and Buzz Aldrin on July 20, 1969. From designers to engineers and even communication specialists and the builders who assembled these towering rockets, hundreds of thousands of people worked on getting humans to the Moon, yet only a few have been recognized for their contributions. George D. Morgan sets the record straight by giving these forgotten figures of space travel their due. The son of rocket scientists who worked directly on NASA projects Mercury, Gemini and Apollo, Morgan gives behind-the-scenes details on the famous missions, including a rare interview with Dieter Huzel, Wernher von Braun's right hand man and a chief engineer on every major manned space program. Even the most voracious readers of US space flight history will discover things in this book that they have never read before. *Rocket Age* shines a light on those that have for too long been left out of the picture of the race to land on the Moon.
