Abstract

The abstract goes here. Please read this document carefully before preparing your manuscript.

To ensure that all reports have a uniform appearance corresponding to published papers at the major AI conferences (like ICAI and AAAI), authors must adhere to the following instructions.

1 Introduction

This document details the requirements necessary to get your report formatted using L^AT_EX. If you are using Microsoft Word, instructions are provided in a different document.

All authors must comply with the following:

- Use the provided author kit.
- Prepare your paper by modifying this file (`formatting-instructions-latex.tex`) if using L^AT_EX.
- Adhere to the stated page limitations.
- Check every page of your report before submitting it.
- Remember to put your names and study IDs in the `\author{}` field, and include your group name in the `\title{}` field.

2 Bibliography

Your bibliography should be formatted using `aaai.bst` as this document. Citations are included like so (Great 2015). Multiple citations appear like this (Author, Author, and Author 2015; Power 2015). All references to be cited should be included in BibTeX format in the file `bibliography.bib`.¹

3 Using L^AT_EX to Format Your Paper

Make sure that the AAAI style file `aaai.sty` and the bibliography file `aaai.bst` are in the same folder as your L^AT_EX source files.

¹Almost anything ever published can be found in BibTeX format via Google Scholar, but if using this method, you need to check the BibTeX entry for sanity before including it in the `bibliography.bib` file.

3.1 Paper Size, Margins, and Column Width

Papers must be formatted to print in two-column format on 8.5 x 11 inch US letter-sized paper. The margins must be exactly as follows:

- Top margin: .75 inches
- Left margin: .75 inches
- Right margin: .75 inches
- Bottom margin: 1.25 inches

This is ensured by the following commands in the preamble (assuming you use PDFL^AT_EX to compile the document):

```
\setlength{\pdfpagewidth}{8.5in}  
\setlength{\pdfpageheight}{11in}
```

Column Width and Margins. To ensure maximum readability, your paper must include two columns. Each column should be 3.3 inches wide (slightly more than 3.25 inches), with a .375 inch (.952 cm) gutter of white space between the two columns. The `aaai.sty` file will automatically create these columns for you.

3.2 Overlength Papers

If your paper is too long, try to shrink the size of your graphics. Use `\centering` instead of `\begin{center}` in your figure environment. If these two methods don't work, you may minimally use the following. For floats (tables and figures), you may minimally reduce `\floatsep`, `\textfloatsep`, `\abovcaptionskip`, and `\belowcaptionskip`. For mathematical environments, you may minimally reduce `\abovedisplayskip`, `\belowdisplayskip`, and `\arraycolsep`. You may also alter the size of your bibliography by inserting `\fontsize{9.5pt}{10.5pt}` `\selectfont` right before the bibliography.

Commands that alter page layout are forbidden. These include `\columnsep`, `\topmargin`, `\topskip`, `\textheight`, `\textwidth`, `\oddsidemargin`, and `\evensidemargin` (this list is not exhaustive).

The title sec package is not allowed. Before using every trick you know to make your paper a certain length, try reducing the size of your graphics or cutting text instead.

Latex User Manual

TD Snyder

Latex User Manual:

Right here, we have countless books **Latex User Manual** and collections to check out. We additionally provide variant types and moreover type of the books to browse. The good enough book, fiction, history, novel, scientific research, as with ease as various new sorts of books are readily available here.
