Readicide Kelly Gallagher,2023-10-10 Read i cide The systematic killing of the love of reading often exacerbated by the inane mind numbing practices found in schools Reading is dying in our schools Educators are familiar with many of the factors that have contributed to the decline poverty second language issues and the ever expanding choices of electronic

entertainment In this provocative book *Readicide: How Schools are Killing Reading and What You Can Do About It* author and teacher Kelly Gallagher suggests it is time to recognize a new and significant contributor to the death of reading in our schools. *Readicide* Gallagher argues that American schools are actively though unwittingly furthering the decline of reading. Specifically he contends that the standard instructional practices used in most schools are killing reading by valuing standardized testing over the development of lifelong readers, mandating breadth over depth in instruction, requiring students to read difficult texts without proper instructional support and insisting students focus on academic texts, ignoring the importance of developing recreational reading. *Readicide* provides teachers, literacy coaches and administrators with specific steps to reverse the downward spiral in reading steps that will help prevent the loss of another generation of readers.

Prompting Deeper Discussions

Matthew R. Kay, 2024 Classroom teacher Matthew R. Kay offers guidance and exercises to help teachers across grades and content areas craft and refine vital discussion prompts.

Connecting Across Disciplines Susan Chenelle, Audrey Fisch, 2016-02-10 While the Common Core has made informational text a focal point in English language arts classrooms around the country it has also made literacy a key concern in other subjects. Teaching literacy in the disciplines and navigating informational texts are challenging prospects. How can content area teachers find high quality informational texts that will enhance their curriculum? How do they go about working with these new texts? Most importantly how do teachers balance their responsibility towards their subject matter with the new charge to incorporate disciplinary literacy? The key is to connect, communicate and collaborate. Teachers can meet these challenges together and enhance student literacy engagement and motivation along the way. This volume offers a practical model that teachers in any discipline can use to incorporate informational texts into their classrooms on their own or in collaboration with colleagues in other content areas. We also share suggestions and ideas for initiating and implementing collaboration between teachers of any discipline even those working at the secondary level with complex schedules and curricula.

Humbling Faith Peter Admirand, 2019-03-22 This is a book hoping to embolden doubt and sharpen unanswerable questions all in the context of loving the self and one another. Ridiculously, it believes the world can be healed through such a hope. It is especially addressed to those allergic to the word faith and others who feel confident and proud in the faith they profess or system of thought they live by. *Humbling Faith* helps us see how our beliefs or non-beliefs, our belongings and identities often remain flawed, myopic, self-absorbed, unredeemed. The hope is that such awareness of our brokenness can fuel greater ethical partnerships and dialogue promoting peace from our recognized need for one another. *Humbling Faith* is not only a resource towards humbling other faiths but most importantly your own.

Political Communication and Deliberation John Gastil, 2008 The act of deliberation is the act of reflecting carefully on a matter and weighing the strengths and weaknesses of alternative solutions to a problem. It aims to arrive at a decision or judgment based not only on facts and data but also on values, emotions, and other less technical considerations. Though a solitary individual can deliberate, it more commonly means making decisions together as a small group, an organization, or a nation. *Political Communication and Deliberation* takes a unique approach to the field of political communication.
