the legacy of slavery and white supremacy in America      *Close Reading with Computers* Martin Paul Eve, 2019-06-04 Most contemporary digital studies are interested in distant reading paradigms for large scale literary history This book asks what happens when such telescopic techniques function as a microscope instead The first monograph to bring a range of computational methods to bear on a single novel in a sustained fashion it focuses on the award winning and genre bending *Cloud Atlas* 2004 Published in two very different versions worldwide without anyone taking much notice David Mitchell's novel is ideal fodder for a textual genetic publishing history reflections on micro tectonic shifts in language by authors who move between genres and explorations of how we imagine people wrote in bygone eras Though *Close Reading with Computers* focuses on but one novel it has a crucial exemplary function author Martin Paul Eve demonstrates a set of methods and provides open source software tools that others can use in their own literary critical practices In this way the project serves as a bridge between users of digital methods and those engaged in more traditional literary critical endeavors

**Unfelt** James Noggle, 2020-03-15 *Unfelt* offers a new account of feeling during the British Enlightenment finding that the passions and sentiments long considered as preoccupations of the era depend on a potent insensibility the secret emergence of pronounced emotions that only become apparent with time Surveying a range of affects including primary sensation love and self love greed happiness and patriotic ardor James Noggle explores literary evocations of imperceptibility and unfeeling that pervade and support the period's understanding of sensibility Each of the four sections of *Unfelt* on philosophy the novel historiography and political economy charts the development of these idioms from early in the long eighteenth century to their culmination in the age of sensibility From Locke to Eliza Haywood Henry Fielding and Frances Burney and from Dudley North to Hume and Adam Smith Noggle's exploration of the insensible dramatically expands the scope of affect in the period's writing and thought Drawing inspiration from contemporary affect theory Noggle charts how feeling and unfeeling flow and feed back into each other identifying emotional dynamics at their most elusive and powerful the potential the incipient the emergent the virtual Open Access edition funded by the National Endowment for the Humanities      [The Cambridge Companion to Literature and Science](#) Steven Meyer, 2018-05-03 In 1959 C P Snow lamented the presence of what he called the two cultures the apparently unbridgeable chasm of understanding and knowledge between modern literature and modern science In recent decades scholars have worked diligently and often with great ingenuity to interrogate claims like Snow's that represent twentieth and twenty first century literature and science as radically alienated from each other The *Cambridge Companion to Literature and Science* offers a roadmap to developments that have contributed to the demonstration and emergence of reciprocal connections between the two domains of inquiry Weaving together theory and empiricism individual chapters explore major figures Shakespeare Bacon Emerson Darwin Henry James William James Whitehead Einstein Empson and McClintock major genres and modes of writing fiction science fiction non fiction prose poetry and dramatic works and major theories and movements pragmatism critical theory science studies cognitive science

ecocriticism cultural studies affect theory digital humanities and expanded empiricisms This book will be a key resource for scholars graduate students and undergraduate students alike      **Virtual Victorians** Veronica Alfano,Andrew Stauffer,2016-01-18 Exploring how scholars use digital resources to reconstruct the 19th century this volume probes key issues in the intersection of digital humanities and history Part I examines the potential of online research tools for literary scholarship while Part II outlines a prehistory of digital virtuality by exploring specific Victorian cultural forms      **The Grammar of Genres and Styles** Dominique Legallois,Thierry Charnois,Meri Larjavaara,2018-04-09 The book provides new findings about the grammar of genres and styles It combines new methods with different kinds of empirical material from social reports to live TV sports commentaries or 16th century newspapers in English French Latin and Spanish The study of non discrete units suggests new ways of seeing the linguistic variation between genres and styles and the ways in which belonging to a genre predetermines linguistic choices      **Shakespeare's Queer Analytics** Don Rodrigues,2022-01-27 What led Shakespeare to write his most cryptic poem The Phoenix and Turtle Could the Phoenix represent Queen Elizabeth on the verge of death as Shakespeare wrote Is the Earl of Essex recently executed for treason the Turtledove lover of the Phoenix Questions such as these dominate scholarship of both Shakespeare's poem and the book in which it first appeared Robert Chester's enigmatic collection of verse Love's Martyr 1601 where Shakespeare's allegory sits next to erotic love lyrics by Ben Jonson George Chapman and John Marston as well as work by the much lesser known Chester Don Rodrigues critiques and revises traditional computational attribution studies by integrating the insights of queer theory to a study of Love's Martyr A book deeply engaged in current debates in computational literary studies it is particularly attuned to questions of non normativity deviation and departures from style when assessing stylistic patterns Gathering insights from decades of computational and traditional analyses it presents most radically data that supports the once outlandish theory that Shakespeare may have had a significant hand in editing works signed by Chester At the same time this book insists on the fundamentally collaborative nature of production in Love's Martyr Developing a compelling account of how collaborative textual production could work among early modern writers Shakespeare's Queer Analytics is a much needed methodological intervention in computational attribution studies It articulates what Rodrigues describes as queer analytics an approach to literary analysis that joins the non normative close reading of queer theory to the distant attention of computational literary studies highlighting patterns that traditional readings often overlook or ignore      **The Cambridge Companion to British Fiction, 1945-2010** David James,2015-10-06 The Cambridge Companion to British Fiction since 1945 provides insight into the critical traditions shaping the literary landscape of modern Britain      **Futures of Comparative Literature** Ursula Heise,2017-03-27 Futures of Comparative Literature is a cutting edge report on the state of the discipline in Comparative Literature Offering a broad spectrum of viewpoints from all career stages a variety of different institutions and many language backgrounds this collection is fully global and diverse The book includes previously unpublished interviews with

key figures in the discipline as well as a range of different essays short pieces on key topics and longer in depth pieces It is divided into seven sections Futures of Comparative Literature Theories Histories Methods Worlds Areas and Regions Languages Vernaculars Translations Media Beyond the Human and contains over 50 essays on topics such as Queer Reading Human Rights Fundamentalism Untranslatability Big Data Environmental Humanities It also includes current facts and figures from the American Comparative Literature Association as well as a very useful general introduction situating and introducing the material Curated by an expert editorial team this book captures what is at stake in the study of Comparative Literature today

**Unthought** N. Katherine Hayles, 2017-04-05 N Katherine Hayles is known for breaking new ground at the intersection of the sciences and the humanities In *Unthought* she once again bridges disciplines by revealing how we think without thinking how we use cognitive processes that are inaccessible to consciousness yet necessary for it to function Marshalling fresh insights from neuroscience cognitive science cognitive biology and literature Hayles expands our understanding of cognition and demonstrates that it involves more than consciousness alone Cognition as Hayles defines it is applicable not only to nonconscious processes in humans but to all forms of life including unicellular organisms and plants Startlingly she also shows that cognition operates in the sophisticated information processing abilities of technical systems when humans and cognitive technical systems interact they form cognitive assemblages as found in urban traffic control drones and the trading algorithms of finance capital for instance and these assemblages are transforming life on earth The result is what Hayles calls a planetary cognitive ecology which includes both human and technical actors and which poses urgent questions to humanists and social scientists alike At a time when scientific and technological advances are bringing far reaching aspects of cognition into the public eye *Unthought* reflects deeply on our contemporary situation and moves us toward a more sustainable and flourishing environment for all beings

**Philology in the Making** Pál Kelemen, Nicolas Pethes, 2019-03-20 Philological practices have served to secure and transmit textual sources for centuries However this volume contends it is only in the light of the current radical media change labeled digital turn that the material and technological prerequisites of the theory and practice of philology become fully visible The seventeen studies by scholars from the universities of Budapest and Cologne assembled here investigate these recent transformations of our techniques of writing and reading by critically examining core approaches to the history and epistemology of the humanities Thus a broad praxeological overview of basic cultural techniques of collective memory is unfolded
