DeWitte, 2012 Gateways to Art Nevitt Nixon, 2023-02-22 Visual Arts Art also known as visual art to distinguish it from other types of art is a conscious creation of a visual object or experience through the use of skill or imagination Painting sculpture printmaking drawing decorative arts photography and installation are all included in the category of art On one end of the spectrum the various visual arts serve purely aesthetic and on the other purely utilitarian purposes The terms artist and artisan are frequently used to describe people who put a lot of emphasis on the practical aspect of their work However this should not be interpreted as a rigid plan Motives can be very different even within the same type of art As a result a weaver or a potter might make a blanket or a salad bowl that is both beautiful and very useful or they might make works that are just beautiful to look at A definition of art that encompasses this continuum has existed for centuries in cultures like Africa and Oceania However by the middle of the 18th century the establishment of a sense that painting and sculpture were art and distinct from more utilitarian media in the West Art institutions maintained this rigid distinction between art forms until the late 20th century when it began to be questioned
