Santelli, 2002-01-01 Foundations of Economic Personalism is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism's unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism's stress upon human dignity humane social structures and social justice This final volume in the series systematically applies the praxeological from the first volume and theoretical from the second volume foundations of the personalist tradition to free market economic theory Unlike the previous two this work defends

economic liberty in theologically sensitive terms that reference the personalist tradition without compromising the disciplinary integrity of either economics or social ethics

Basic Human Rights and the Humanitarian Crises in Sub-Saharan Africa Gabriel Andrew Msoka, 2007-04-15 For decades post independence Africa has been marked by conflicts violence and civil wars leading to a displacement of civilian populations and numerous humanitarian crises For example the Somali war the 1994 Rwandan genocide and the Darfur conflict in Western Sudan illustrate this phenomenon In these situations protecting the basic human rights of security subsistence the liberties of social participation and the physical movement of refugees and internally displaced persons IDPs particularly women children and young people has been seen as inadequate This book offers the following a systematic presentation of the nature and scope of the crises an evaluative description of the achievements and failures of governments organizations and the international community in responding to the crises a critical analysis of the rationale for such an inadequate response and a philosophical and theological study of basic human rights that seeks to redress these failures by envisioning an appropriate response and a lasting solution to the conflicts displacement and humanitarian crises in Sub Saharan Africa

The Oxford Handbook of Vatican II Catherine E. Clifford, Massimo Faggioli, 2023 This Handbook presents 44 chapters covering the complex history of the Second Vatican Council of the Catholic Church 1962 1965 including contributions from a wide range of geographical and theological perspectives

Vatican II Matthew L Lamb, Matthew Levering, 2008-04-30 From 1962 to 1965 in perhaps the most important religious event of the twentieth century the Second Vatican Council met to plot a course for the future of the Roman Catholic Church After thousands of speeches resolutions and votes the Council issued sixteen official documents on topics ranging from divine revelation to relations with non Christians In many ways though the real challenges began after the council was over and Catholics began to argue over the interpretation of the documents Many analysts perceived the Council s far reaching changes as breaks with Church tradition and soon this became the dominant bias in the American and other media which lacked the theological background to approach the documents on their own terms In *Vatican II Renewal Within Tradition* an international team of theologians offers a different reading of the documents from Vatican II The Council was indeed putting forth a vision for the future of the Church but that vision was grounded in two millennia of tradition Taken together these essays demonstrate that Vatican II s documents are a development from an established antecedent in the Roman Catholic Church Each chapter contextualizes Vatican II teachings within that rich tradition The resulting book is an indispensable and accessible companion to the Council s developments one that focuses on theology and transcends the mass media storyline of liberal versus conservative
