Adopting a systematic and practical approach the authors include the theory case studies and hands on workshops explaining how to work with real data As a result senior level undergraduate and graduate students as well as industrial engineers learn how to develop and use the latest computer models for the predictive modeling and optimization of integrated refinery processes Additional material is available online providing relevant spreadsheets and simulation files for all the models and examples presented in the book

PEM Fuel Cells with Bio-Ethanol Processor Systems Marta S. Basualdo, Diego Feroldi, Rachid Outbib, 2011-10-30 An apparently appropriate control scheme for PEM fuel cells may actually lead to an inoperable plant when it is connected to other unit operations in a process with recycle streams and energy integration PEM Fuel Cells with Bio Ethanol Processor Systems presents a control system design that provides basic regulation of the hydrogen production process with PEM fuel cells It then goes on to construct a fault diagnosis system to improve plant safety above this control structure PEM Fuel Cells with Bio Ethanol Processor Systems is divided into two parts the first covers fuel cells and the second discusses plants for hydrogen production from bio ethanol to feed PEM fuel cells Both parts give detailed analyses of modeling simulation advanced control and fault diagnosis They give an extensive in depth discussion of the problems that can occur in fuel cell systems and propose a way to control these systems through advanced control algorithms A significant part of the book is also given over to computer aided engineering software tools that can be used to evaluate the dynamic performance of the overall plant PEM Fuel Cells with Bio Ethanol Processor Systems is intended for use by researchers and advanced students on chemical electrical electronic and mechanical engineering courses in which dynamics and control are incorporated with the traditional steady state coverage of flowsheet synthesis engineering economics and optimization
