The grandmother rarely visits, and the child's mother is pleased that grandmother and grandchild will spend time together. Which of the following responses by the nurse is MOST important?

1. "Your toddler may be fearful when left alone with her grandmother."
2. "How long is your mother staying?"

1) toddlers display less fear of strangers as long as parents are present; when left alone, the toddler may be fearful or anxious; appropriate information for the nurse to relate to the mother; psychosocial need

2) not the most important question

3) CORRECT— because toddlers explore by putting things in their mouths, parents should be aware of all potentially toxic substances in the home; parents should be aware if visitors in the home are taking medication, which should not be left in purses or suitcases lying around

4) safety takes priority
