and 13 000 well paying jobs They actually were making America great again they crowed Two years later the project was in shambles Ten thousand construction workers were supposed to have been building what Trump had promised would be the eighth wonder of the world Instead land had been seized homes had been destroyed and hundreds of millions of municipal dollars had been committed for just a few hundred jobs nowhere near enough for Foxconn to earn the incentives Walker had shoveled at them In Foxconned journalist Lawrence Tabak details the full story of this utter collapse which was disturbingly inevitable As Tabak shows everything about Foxconn was a disaster But worse he reveals how the economic incentive infrastructure across the country is broken leading to waste cronyism and the steady transfer of tax revenue to corporations Tabak details every kind of financial chicanery from eminent domain abuse to good old fashioned looting all to benefit a coterie of consultants politicians and contractors With compassion and care he also reports the distressing stories of the many individuals whose lives were upended by Foxconn
