how translators writers and readers respond to sexual modernities and to what extent the keywords of queer social movements travel across borders The handbook draws from fields as diverse as translation studies critical multilingualism studies comparative literature European studies Slavic studies Middle Eastern studies Latin American studies and East Asian studies This pioneering handbook maps out an emerging brand of women s gender and sexuality studies that approaches sexualities as translational formations Divided into two parts the handbook covers Theoretical chapters on the interdisciplinary dialogue between translation studies and queer studies Empirical studies of both canonic and minor scientific religious literary philosophical and political texts about sex and sexuality in translation across a variety of world languages With 20 chapters written by leading academics from around the world The Routledge Handbook of Translation and Sexuality will serve as an important reference for students and scholars in the fields of translation studies applied linguistics modern languages and women s gender and sexuality studies

Catalogue Sotheby, Wilkinson & Hodge,1924 **Atheism and Deism Revalued** Wayne Hudson,Diego Lucci,2016-04-15 Given the central role played by religion in early modern Britain it is perhaps surprising that historians have not always paid close attention to the shifting and nuanced subtleties of terms used in religious controversies In this collection particular attention is focussed upon two of the most contentious of these terms atheism and deism terms that have shaped significant parts of the scholarship on the Enlightenment This volume argues that in the seventeenth and eighteenth century atheism and deism involved fine distinctions that have not always been preserved by later scholars The original deployment and usage of these terms were often more complicated than much of the historical scholarship suggests Indeed in much of the literature static definitions are often taken for granted resulting in depictions of the past constructed upon anachronistic assumptions Offering reassessments of the historical figures most associated with atheism and deism in early modern Britain this collection opens the subject up for debate and shows how the new historiography of deism changes our understanding of heterodox religious identities in Britain from 1650 to 1800 It problematises the older view that individuals were atheist or deists in a straightforward sense and instead explores the plurality and flexibility of religious identities during this period

Drawing on the most recent scholarship the volume enriches the debate about heterodoxy offering new perspectives on a range of prominent figures and providing an overview of major changes in the field

Interpreting Diversity: Europe and the Malay World Christina Skott, 2018-04-19 This volume departs from conventional historiography concerned with colonialism in the Malay world by turning to the use of knowledge generated by European presence in the region The aim here is to map the ways in which European observers and scholars interpreted the ethnic linguistic and cultural diversity which has been seen as a hallmark of Southeast Asia With a chronological scope of the eighteenth to the early twentieth century contributors examine not only European writing on the Malay world but the complex origins of various forms of knowledge dependent on local agency but always closely intertwined with contemporary metropolitan scientific and scholarly ideas Knowledge of the peoples languages and music of the Malay world it is argued came to inform and shape European scholarship within a variety of areas such as Enlightenment science and anthropology ideas of human progress philological theory ethnomusicology and emerging theories of race But this volume also contributes to ongoing debates within the region by discussing ideas about the Malay language and definitions of Malayness The last chapters of the book present a reversed viewpoint in examinations of how local cultural forms theatrical traditions and literature were reshaped and given new meaning through encounters with cosmopolitanism and perceived modernity This book was previously published as a special issue of *Indonesia and the Malay World*
