

## Important

Since Magento is a multi-store service, you are able to administer several stores from your Magento admin page. Whenever you configure your Mailjet settings, if you have selected 'Default Config' from the 'Current Configuration Scope' menu, the settings you choose will be saved as default ones. However, if you choose a certain store instead, they will **only be valid for the store you have selected at the time**.

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation bar with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, System, and Mailjet. The 'System' tab is currently selected. Below the navigation bar, there is a 'Latest Message' section with a warning icon and text about listing products in marketplaces like Amazon. The main content area is divided into two columns. On the left, there is a 'Current Configuration Scope' dropdown menu, which is highlighted with a red box. The dropdown menu shows 'Default Config' as the current selection, with 'Main Website' selected below it. Other options include 'Main Website Store' and 'Default Store View'. Below the dropdown menu, there is a sidebar with a 'GENERAL' section containing links for General, Web, and Design. On the right, there is a 'Settings' section with a 'General Settings' subsection. Under 'General Settings', there is a field for 'Enabled' with a dropdown menu set to 'Yes'. A note below the dropdown menu states: 'If enabled, overrides standard SMTP settings'.
