Memorandum In Zulu Language:

A Cultural History of Firearms in the Age of Empire Karen Jones, 2016-03-16 Firearms have been studied by imperial historians mainly as means of human destruction and material production Yet firearms have always been invested with a whole array of additional social and symbolical meanings By placing these meanings at the centre of analysis the essays presented in this volume extend the study of the gun beyond the confines of military history and the examination of its impact on specific colonial encounters By bringing cultural perspectives to bear on this most pervasive of technological artefacts the contributors explore the densely interwoven relationships between firearms and broad processes of social change In so doing they contribute to a fuller understanding of some of the most significant consequences of British and American imperial expansions Not the least original feature of the book is its global frame of reference Bringing together historians of different periods and regions *A Cultural History of Firearms in the Age of Empire* overcomes traditional compartmentalisations of historical knowledge and encourages the drawing of novel and illuminating comparisons across time and space In the Shadow of Isandlwana John Laband, Jan, 2023-10-12 Lord Chelmsford is not a bad man He is industrious and conscientious so far as his lights guide him But nature has refused to him the qualities of a great captain He has suffered much and is entitled to certain commiseration Thomas Gibson Bowles *Vanity Fair* General Lord Chelmsford's military career took him around the world he served in the Crimean War the Indian Mutiny and the Abyssinian Expedition before commanding the British invasion of the Zulu Kingdom in South Africa In January 1879 disaster struck when Chelmsford divided his forces at Isandlwana in the face of the enemy and the Zulu overwhelmed his camp killing more than 1 300 of its defenders Such a defeat was almost unprecedented in a Victorian colonial campaign Despite Chelmsford's later victories at Gingindlovu and Ulundi he was humiliatingly relieved of his command His responsibility for Isandlwana dogged him for the rest of his days and he would forever be associated with this historic defeat In this comprehensive new biography Anglo Zulu War specialist John Laband explores the personal character and military career of Lord Chelmsford providing a well rounded well balanced and well informed picture of this complex military figure Companion to the Anglo-Zulu War Ian Knight, 2008-10-16 The Anglo Zulu War was a defining episode in British imperial history and it is still a subject of intense interest The Zulu victory at Isandlwana the heroic British defence of Rorke's Drift and the eventual British triumph are among the most closely researched events of the colonial era In this historical companion Ian Knight one of the foremost authorities on the war and the Zulu kingdom provides an essential reference guide to a short bloody campaign that had an enduring impact on the history of Britain and southern Africa He gives succinct summaries of the issues events armies and individuals involved His work is an invaluable resource for anyone who is interested in the history of the period in the operations of the British army in southern Africa and in the Zulu kingdom *A Zulu-English Dictionary with Notes on Pronunciation* Alfred T. Bryant, 1905 To Bind the Nation Nicholas Cope, 1993 To Bind the Nation was the purpose of the inkatha the scared coil of the Zulu

naion It was also the guiding principle of the Zulu king Solomon ka Dinuzulu and of the organization centered around him the first inkatha Solomon dies in 1933 as did the first Inkatha but their legacy Zulu unity and a sense of nationhood endured

Tracing Language Movement in Africa Ericka A. Albaugh, Kathryn M. de Luna, 2018-01-10 The great diversity of ethnicities and languages in Africa encourages a vision of Africa as a fragmented continent with language maps only perpetuating this vision by drawing discrete language groups In reality however most people can communicate with most others within and across linguistic boundaries even if not in languages taught or learned in schools Many disciplines have looked carefully at language movement and change on the continent but their lack of interaction has prevented the emergence of a cohesive picture of African languages *Tracing Language Movement in Africa* gathers eighteen scholars together to offer a truly multidisciplinary representation of language in Africa combining insights from history archaeology religion linguistics political science and philosophy The resulting volume illuminates commonalities and distinctions in these disciplines understanding of language change and movement in Africa The volume is empirical aiming to represent language more accurately on the continent as well as theoretical It identifies the theories that each discipline uses to make sense of language movement in Africa in plain terms and highlights the themes that cut across all disciplines how scholars use data understand boundaries represent change and conceptualize power The volume is organized to reflect differing conceptions of language that arise from its discipline specific contributions that is tendencies to study changes that consolidate language or those that splinter it viewing languages as whole or in part Each contribution includes a short explanation of a discipline s theoretical and methodological approaches to language movement and change to ensure that the chapters are accessible to non specialists followed by an illustrative empirical case study This volume will inspire multidisciplinary conversations around the study of language change in Africa opening new interdisciplinary dialogue and spurring scholars to adapt the questions data and method of other disciplines to the problems that animate their own fields **Bible Translation and African Languages** Gosnell L. Between Worlds Linda Chisholm, 2017-11-30 How the story of how missionary schools adopted the Bantu education reforms gives insight into the ongoing legacy of the apartheid in the South African educational system The transition from apartheid to the post apartheid era has highlighted questions about the past and the persistence of its influence in present day South Africa This is particularly so in education where the past continues to play a decisive role in relation to inequality *Between Worlds* German Missionaries and the Transition from Mission to Bantu Education in South Africa scrutinises the experience of a hitherto unexplored German mission society probing the complexities and paradoxes of social change in education It raises challenging questions about the nature of mission education legacies Linda Chisholm shows that the transition from mission to Bantu Education was far from seamless Instead past and present interpenetrated one another with resistance and compliance cohabiting in a complex new social order At the same time as missionaries complied with the new

Bantu Education dictates they sought to secure a role for themselves in the face of demands of local communities for secular state controlled education When the latter was implemented in a perverted form from the mid 1950s one of its tools was textbooks in local languages developed by mission societies as part of a transnational project with African participation Introduced under the guise of expunging European control Bantu Education merely served to reinforce such control The response of local communities was an attempt to domesticate and master the foreign body of the mission so as to create access to a larger world This book focuses on the ensuing struggle fought on many fronts including medium of instruction and textbook content with concomitant sub texts relating to gender roles and sexuality South Africa s educational history is to this day informed by networks of people and ideas crossing geographic and racial boundaries The colonial legacy has inevitably involved cultural mixing and hybridisation with paradoxically parallel pleas for purity Chisholm explores how these ideas found expression in colliding and coalescing worlds one African the other European caught between mission and apartheid education

Practical Phonetics for Students of African Languages D Westermann,Ida C. Ward,2015-06-03 First published in 1933 this book looks at the phonetics of African languages It argues that a good grounding in phonetics and tone work is an indispensable preliminary to anyone embarking on a study of African language and so provides the material necessary for this in a simple form The volume is primarily a practical manual for students of African languages but will also be an invaluable tool for students of general linguistics as a work of scientific interest The languages observed present features of language that are very different to those found in Europe

The Frightened Land Jennifer Beningfield,2006-11-07 An investigation into the spatial politics of separation and division in South Africa principally during the apartheid years and the effects of these physical and conceptual barriers on the land In contrast to the weight of literature focusing on post apartheid South Africa the focus of this book includes the spatial political and cultural landscape practices of the apartheid government and also refers to contemporary work done in Australia England and the US It probes the uncertainty and ambiguity of identities and cultures in post apartheid society in order to gain a deep understanding of the history that individuals and society now confront Drawing on a wealth of research materials including literature maps newspapers monuments architectural drawings government legislation tourist brochures political writing and oral histories this book is well illustrated throughout and is a unique commentary on the spatial politics of a time of enormous change
