

## JANUARY ... DOES IT BRING YOU JOY?

- 1 January is the time for renewal on many fronts. It's the time of the year to re-evaluate everything. If something or someone doesn't bring you joy, it's pretty pointless carrying on with it. If we want the best, we must do our best. We must keep our family space safe and secure so that we are thriving as a people and as a nation. 5
- 2 In order to live their best lives, people are spreading themselves thinner and thinner with multiple streams of income. In the process we earn more but live less, we lose our focus of what is important.
- 3 With social media, keeping up with other Instagrammers are having a devastating effect on self-perception. Everything appears to be real perfect, but the fabric of our society is frazzled. Use January to take stock and start navigating new ways of doing things. Instead of multiple streams of sole sessions, travel more, and connect with people and places that bring you joy. 10

*The EU and Member State Building* Soeren Keil, Zeynep Arkan, 2014-12-05 This book critically examines the process of statebuilding by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union's policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU's actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general

*Dangerous Allies* Malcolm Fraser, Cain Roberts, 2016-04-12 Australia has always been reliant on great and powerful friends for its sense of national security and for direction on its foreign policy first on the British Empire and now on the United States Australia has actively pursued a policy of strategic dependence believing that making a grand bargain with a powerful ally was the best policy to ensure its security and prosperity *Dangerous Allies* examines Australia's history of strategic dependence and questions the continuation of this position It argues that international circumstances in the world and in the Western Pacific especially now make such a policy highly questionable Since the fall of the Soviet Union the United States has also changed dramatically making it less relevant to Australia and a less appropriate ally on which Australia should rely Malcolm Fraser argues that Australia should adopt a much greater degree of independence in foreign policy and that we should no longer merely follow other nations into wars of no direct interest to Australia or Australia's security He argues for an end to strategic dependence and for the timely establishment of a truly independent Australia

*Reappraising the Seicento* Andrew Cheetham,Joseph Knowles,Jonathan Wainwright,2014-03-26 Reappraising the Seicento presents new perspectives on some relatively well researched areas of music history and adumbrates some more arcane aspects of the period offered by fledgling scholars and early career researchers in the field of musicology The scope of the title has the potential to warrant a tome on the subject but it is not the intention to provide a comprehensive survey of music in the seventeenth century Instead five essays are presented divided into two sections which represent the research activities of young scholars with an interest in the seicento In the first part of this book compositional procedure in seicento Italy is examined through two different analytical procedures Musical styles and fashions changed considerably throughout Europe in the seventeenth century at the forefront of these changes were Italian composers and performers who found fame and influence in their native countries as well as abroad In the second part of this book the dissemination of Italian music in

seventeenth century England and the appropriation and assimilation of contemporary Italian compositional techniques by English composers are considered The phenomenal interest shown in Italian music by English patrons and musicians of the seventeenth century is placed into context and is revealed to be part of a larger historical trend Corporate versus National Interest in US Trade Policy Richard L. contemporary works such as Steven Spielberg's *Catch Me If You Can* 2002 and television's *Mad Men*. The first book to examine the life and work of this fascinating figure, *Saul Bass: Anatomy of Film Design*, explores the designer's revolutionary career and his lasting impact on the entertainment and advertising industries. Jan Christopher Horak traces Bass from his humble beginnings as a self-taught artist to his professional peak when auteur directors like Stanley Kubrick, Robert Aldrich, and Martin Scorsese sought him as a collaborator. He also discusses how Bass incorporated aesthetic concepts borrowed from modern art in his work, presenting them in a new way that made them easily recognizable to the public. This long overdue book sheds light on the creative process of the undisputed master of film title design, a man whose multidimensional talents and unique ability to blend high art and commercial imperatives profoundly influenced generations of filmmakers, designers, and advertisers.

*Reconceptualizing English Education in a Multilingual Society* Isabel Pefianco Martin, 2018-03-01 This book brings together chapters that describe, investigate, and analyze the place of English in education in multilingual Philippines. Unlike most studies on languages in education which take a neutral, de-contextualized stance, this volume takes a pluricentric view of the English language by positioning it in relation to its varieties as well as to other languages in the country. Because of the changing realities of English in the Philippines, traditional assumptions about the language as monolithic and unchanging, as well as about how it should be taught and learned, need to be revisited and re-conceptualized.

**Freedom of Overflight** Merinda E. Stewart, 2021-10-25 Freedom of overflight is in large part uncontroversial. However, several recent international disputes and subsequent scrutiny of the exercise of coastal State jurisdiction in international airspace have highlighted the problematic legal nature of this freedom, namely, how a State's creeping jurisdiction may encroach upon the rights of other States. This groundbreaking book examines in depth the ambiguous areas at the nexus of air law and the law of the sea with respect to the balance between coastal State jurisdiction and freedom of overflight, thus providing greater legal certainty regarding State actions involving overflight in international airspace. The author identifies and thoroughly examines three highly salient matters impacting overflight in international waters: the right of a State to establish safety zones around maritime constructions and the legitimacy of extending these safety zones to the airspace; what, if anything, under international civil aviation law specifically prohibits a State from discriminating against the aircraft of another State in international airspace within its flight information region; and whether air defence identification zones can be justified as customary international law. Also considered is the law of the sea concerning transit passage through international straits and archipelagic sea lanes as applied to airspace users. This is the first detailed study of overflight to combine the perspectives of international civil aviation law and the law of the sea. As such,

it presents a comprehensive analysis of the legality of attempts by coastal States to exercise jurisdiction in international airspace over aircraft registered in other States thus taking a giant step towards determining what freedom of overflight entails by establishing its legitimate limitations It will be welcomed by practitioners policymakers and academics concerned with international transportation national defence international trade and other areas of international law
