Reconfiguring the Global Governance of Climate Change John J. Kirton, Ella Kokotsis, Brittaney Warren, 2022-03-31. This book charts the course and causes of UN G7 and G20 governance of climate change through the crucial period of 2015-2021. It provides a careful comprehensive and reliable description of the individual and interactive contributions of the G7, G20 and UN summits and analyses their results. The authors explain these contributions and results by considering the impacts of causal candidates such as a changing physical ecosystem and international political system and the actions of individual leaders of the world's most systemically significant countries. They apply and improve an established compact causal model grounded in international relations theory to guide these tasks. By developing prescribing and implementing immediate realistic actionable policy solutions to cope with the urgent existential challenge of controlling climate change, this volume will appeal to scholars of international relations, global governance and global environmental governance. Issues in Financial Accounting Scott Henderson, Graham Peirson, Kathy Herbohn, Bryan Howieson, 2015-05-20. *Issues in Financial Accounting* addresses the controversial issues in financial accounting that have been debated by the preparers, users, auditors and regulators of financial statements. Henderson provides the best balance of technical and theoretical coverage in any *Financial Accounting* text on the market today with its presentation of real world examples, current debates and the underlying rationale for the accounting concepts demonstrated. Throughout the text, academic studies and professional accounting research are referenced to also provide a critical understanding of historical debates in financial accounting. The new 15th edition covers significant recent developments to the accounting standards in Australia and is based on the AASB standards and interpretations that have been issued up to the end of 2012. This includes the Australian Accounting Standard Board's AASB program of changes to make accounting standards equivalent to International Financial Reporting Standards.
