 This second edition provides 2400 multiple choice questions on human anatomy and physiology and some physical science  
 separated into 40 categories The answer to each question is accompanied by an explanation Each category has an  
 introduction to set the scene for the questions to come However not all possible information is provided within these  
 Introductions so an Anatomy and Physiology textbook is an indispensable aid to understanding the answers The questions  
 have been used in end of semester examinations for undergraduate anatomy and physiology courses and as such reflect the  
 focus of these particular courses and are pitched at this level to challenge students that are beginning their training in  
 anatomy and physiology The question and answer combinations are intended for use by teachers to select questions for their  
 next examinations and by students when studying for an upcoming test Students enrolled in the courses for which these  
 questions were written include nursing midwifery paramedic physiotherapy occupational therapy nutrition and dietetics  
 health sciences exercise science and students taking an anatomy and physiology course as an elective      *An Introduction to*
