This report can be run two different ways. The first way is to run all discrepancies. This will show reservations that are currently causing discrepancies.

(Note: This report can be run on date and from the current date through K-Date. The report will default out for two weeks. Longer date spans will take longer time for the report to run.)

(Note: The * will help to denote where the discrepancy is)

(Note: This report should be run at least once per day. Once corrections have been made the discrepancy will fall off the report)

(Note: If there are no reservations on this report, that would indicate that reservations are in balance and the property should then run the Marsha Availability Variance Report)
