## **Masks Of The Universe:**

Masks of the Universe Edward Harrison, 2003-05-08 To the ancient Greeks the universe consisted of earth air fire and water To Saint Augustine it was the Word of God To many modern scientists it is the dance of atoms and waves and in years to come it may be different again What then is the real Universe History shows that in every age each society constructs its own universe believing it to be the real and final Universe Yet each universe is only a model or mask of the unknown

Universe Originally published in 2003 this book brings together fundamental scientific philosophical and religious issues in cosmology raising thought provoking questions In every age people have pitied the universes of their ancestors convinced that they have at last discovered the ultimate truth Does the modern model stand at the threshold of discovering everything or will it like all the rest come to be pitied
