Encyclopedia of Information Science and Technology, Fourth Edition Khosrow-Pour, D.B.A., Mehdi, 2017-06-20 In recent years our world has experienced a profound shift and progression in available computing and knowledge sharing innovations. These emerging advancements have developed at a rapid pace, disseminating into and affecting numerous aspects of contemporary society. This has created a pivotal need for an innovative compendium encompassing the latest trends, concepts, and issues surrounding this relevant discipline area. During the past 15 years, the Encyclopedia of Information Science and Technology has become recognized as one of the landmark sources of the latest knowledge and discoveries in this discipline. The Encyclopedia of Information Science and Technology Fourth Edition is a 10 volume set which includes 705 original and previously unpublished research articles covering a full range of perspectives, applications, and techniques contributed by thousands of experts and researchers from around the globe. This authoritative encyclopedia is an all-encompassing, well-established reference source that is ideally designed to disseminate the most forward thinking and diverse research findings. With critical perspectives on the impact of information science management and new technologies in modern settings including but not limited to computer science, education, healthcare, government, engineering, business, and natural and physical sciences, it is a pivotal and relevant source of knowledge that will benefit every professional within the field of information science and technology and is an invaluable addition to every academic and corporate library.

Reference and Information Services Melissa A. Wong, Laura Saunders, 2024-08-22 Written as a textbook for LIS students taking reference courses, this fully updated and revised seventh edition of Reference and Information Services: An Introduction also serves as a helpful handbook for practitioners to refamiliarize themselves with particular types and formats of sources and to refresh their knowledge on specific service topics. The first section grounds the rest of the textbook with an overview of the foundations of reference and an introduction to the theories, values, and standards that guide reference service. The second section provides an overview of reference services and techniques for service provision, establishing a foundation of knowledge on reference service and extending ethical and social justice perspectives. The third part offers an overview of the information life cycle and dissemination of information, followed by an in-depth examination of information sources by type as well as by broad subject areas. Finally, the concluding section guides the reader through the process of developing and maintaining their own vision of reference practice. This textbook is essential reading for all preservice and working librarians, particularly those concerned with ethical and social justice perspectives on reference work. **The**

Ethics of Information Luciano Floridi, 2013-10-10 Luciano Floridi develops an original ethical framework for dealing with the new challenges posed by Information and Communication Technologies (ICTs).
