The Test Breakdown

The sections

The GRE consists of two 75-minute Verbal Reasoning sections, one Verbal Reasoning section, and one Quantitative Reasoning section, which can be either before or after the Verbal Reasoning section. In addition, there are two short essay writing assignments in the Analytical Writing Assessment (AWA) section of the GRE. The experimental section will be placed toward the end of the test. Each section, which contains 20 to 30 questions, will be scored from 1 to 5. Quantitative scores can range from 0 to 170. The scores are scaled from 0 to 170 in half-point increments.

Number of questions and time limit

The GRE Quantitative section contains twenty questions each. You will be given thirty minutes to complete each section. The Verbal section contains twenty questions each. You will be given thirty minutes to complete each section.

GRE Quantitative overview

The new scores in this category are made up of approximately equal proportions of quantitative problems and short data interpretation problems. Quantitative GRE problems are 2 categories: arithmetic and algebra. Quantitative GRE problems include the following: arithmetic, algebra, geometry, and data interpretation. Quantitative GRE problems will be included starting on page 22. We include every other section of the GRE.
