Transformative Change and Real Utopias in Early Childhood Education Peter Moss, 2014-04-24 Early childhood education and care is a major policy issue for national governments and international organisations This book contests two stories both infused by neoliberal thinking that dominate early childhood policy making today the story of quality and high returns and the story of markets stories that promise high returns on investment if only the right technologies are applied to children and the perfection of a system based on competition and individual choice But there are alternative stories and this book tells one a story of democracy experimentation and potentiality in which early childhood centres are public spaces and public resources places where democracy and experimentation are fundamental values community workshops for realising the potentiality of citizens This story calls for transformative change but offers a real utopia both viable and achievable The book discusses some of the conditions needed for the story's enactment and shows what it means in practice in a chapter about project work contributed by a Swedish preschool teacher Critical but hopeful this book is an important contribution to resisting the dictatorship of no alternative and renewing a democratic politics of early childhood education It is essential reading for students and teachers researchers and other academics and for all other concerned citizens

The Nordic Bible Marianne Bjelland Kartzow, Kasper Bro Larsen, Outi Lehtipuu, 2023-09-05 The volume offers a new critical reflection on the use of the Bible in contemporary cultural and political debates in the Nordic countries In Nordic Lutheran societies the Bible has been perceived as a basis of religion and social cohesion Whereas such religious and

confessional factors are well researched vis vis the historical genesis of the Nordic welfare states the focus here is on public use of the Bible in debates of today *EU Law for UK Lawyers* Aidan O'Neill, 2011-07-27 This is the second edition of this wide ranging survey of EU law The new edition has been significantly enlarged Unlike many other EU law books it takes full account not only of the Lisbon Treaty changes to the EU treaties but also of the fact that the EU Charter of Fundamental Rights now has the same legal value as the EU Treaties It therefore not only covers the relevant case law of the Court of Justice of the European Union but also ties that case law into the decisions of the European Court of Human Rights because it is clear that EU law can only now properly be understood and applied against this background of European fundamental rights jurisprudence The book sets out very clearly the broad shape of the European Union s legal systems while also giving the reader a good feel for the policy motivations in the Court of Justice of the European Union and the scope of EU legislative activity Written in a lively and accessible style it is an ideal guide for practitioners whether those coming to the subject for the first time or those already with a background in EU law Among the additions and changes in this expanded edition the book includes new chapters on the EU and fundamental rights on commercial agency on criminal law and on private international law in the EU It also contains a full treatment of EU equality law The first edition *EC Law for UK Lawyers* by Aidan O'Neill and Jason Coppel ISBN 9780406024596 was published by Butterworths in 1994 **Bibliographie der fremdsprachigen Zeitschriftenliteratur**, 1915
