Senseless Violence and Its Ramifications Ami

Rokach,2018-10-22 The baby boomer generation grew up in the 1950s when there existed the general belief that the Cold War was the greatest threat to the world order and a frightening possibility It was difficult to believe then that it could get worse but the same threat of violence is now a daily occurrence around the globe People are being shot slaughtered maimed and disappear for a multitude of reasons none having any connection most of the time with the victims The scale of loss when these tragedies occur is devastating leaving the public as well as policy makers and legislators scrambling for solutions clarification and understanding of how we have become a society where violence is so rampant so frequent and so senseless This book includes contributions by leading experts on violence and its ramifications who review the devastation reasons and consequences of violence which is senseless cruel and aims to hurt and destroy anyone in its path This book was originally published as a special issue of The Journal of Psychology *Ultra-Intensity Patriarchy* Menara Guizardi,2021-10-19 This book analyzes the experiences of women living and working across the busiest and most transited frontier in South America the Paran Tri Border Area TBA between Argentina Brazil and Paraguay From a feminist approach it shows how in these territories the gender violence is intensified configuring an expression of ultra intensity patriarchy Based on ethnographic fieldwork conducted for two years along with Paraguayan women living and working between Ciudad del Este Paraguay and Foz de Iguaz Brazil the authors analyze on the one hand the intricate connection between gender violence and ethnicity on these borders and on the other hand the persistence of a female care that appears to offer a fundamental tool of resistance of vital female drive The work is divided into three parts The first is intended to read like a trip to this complex and fascinating corner of South America through a visual and ethnohistoric journey of the region as well as a theoretical debate that defines gender violence and its particular condensation on border territories The second part explores the women s stories in depth and follow the narrative thread of their biographies rebuilding their experiences from their families of origin to their productive insertion on the TBA Finally the third part takes an in depth look at the complex links between the social reproduction obligations that fall on women and the gender violence on the TBA stressing how they develop strategies to change their life conditions by establishing transborder circuits of care *Ultra Intensity Patriarchy Care and Gender Violence on the Paran Tri Border Area* will be a valuable tool for researchers from different disciplines such as anthropology sociology population studies and gender studies interested in the growing field of studies of feminism borders and migration from an intersectional perspective *Routledge Handbook of Gender and Agriculture* Carolyn E. Sachs,Leif Jensen,Paige Castellanos,Kathleen Sexsmith,2020-10-28 The Routledge Handbook of Gender and Agriculture covers major theoretical issues as well as critical empirical shifts in gender and agriculture Gender relations in agriculture are shifting in most regions of the world with changes in the structure of agriculture the organization of production international restructuring of value chains climate change the global pandemic and national and multinational policy changes This book provides a cutting edge assessment of the field of gender and agriculture with contributions from both leading scholars and up and coming

Kindergarten and First Grade, 1919 The Kindergarten and First Grade, 1920 War, Citizenship, Territory Deborah Cowen, Emily Gilbert, 2024-11-01 For all too obvious reasons war empire and military conflict have become extremely hot topics in the academy Given the changing nature of war one of the more promising areas of scholarly investigation has been the development of new theories of war and war's impact on society War Citizenship Territory features 19 chapters that look at the impact of war and militarism on citizenship whether traditional territorially bound national citizenship or transnational citizenship The editors argue that while there has been an explosion of work on citizenship and territory Western academia's avoidance of the immediate effects of war among other things has led them to ignore war which they contend is both pervasive and well nigh permanent

This volume sets forth a new geopolitically based theory of war's transformative role on contemporary forms of citizenship and territoriality and includes empirical chapters that offer global coverage *Feminist Geopolitics* Deborah P.

Dixon, 2016-04-15 What can unfold from an engagement of feminist issues concerns and practices with the geopolitical How does feminism allow for a reconfiguration of how these two elements the geo and the political are understood and related What kinds of objects can be located and put into motion What kinds of relations can be drawn between these What kinds of practice become valued And what is glossed or rendered absent in the process In this thought provoking and original contribution Deborah P Dixon cautions against the exhaustion of feminist geopolitics as a critique of both a classical and a critical geopolitics and points instead to how feminist imaginaries of Self Other and Earth allow for all manner of work to be undertaken Importantly one of the things they provide for is a reservoir of concerns thoughts and practices that can be reappropriated to flesh out what a feminist geopolitics can be While providing a much needed sustained interjection that draws out achievements to date the book thus gestures forward to productive lines of inquiry and method Grounded via a series of globally diverse case studies that traverse time as well as space *Feminist Geopolitics* feels for the borders of geopolitical thought and practice by navigating four complex and corporeally aware objects of analysis namely flesh bone touch and abhorrence
