

Assignment — Functional Writing

(Suggested time: 40 minutes)

Situation

In recent years, there has been an ongoing debate regarding the amount of free speech that should be permitted on social media platforms. In April 2022, Elon Musk, the billionaire owner of Tesla, purchased Twitter for \$44 billion. Mr. Musk has indicated that he would like to “transform” the platform by promoting more free speech and giving users more control over what they see on it.

In general, some experts are concerned about harmful and manipulative behaviours on the internet persisting and getting worse. Since the early 2000s, social media has been used more and more to influence the public for economic and political gain. There has also been a substantial increase in “fake news.”

You are Darcy Jones, a grade 10 student at Clifford Straton High School in the town of Abbotsville, Alberta. The local school district is considering implementing a high school course (for credit) for all grade 10 students that focuses on social media use, including online etiquette and evaluating online sources. Mr. Jeffrey, the principal at your school, has asked for student feedback about the proposed program.

Assignment

Write a business email to Mr. Jeffrey expressing your views on the proposed social-media course. Clearly express why the school district should implement such a course, what the course should consider covering (and why) as well as how a program such as this would benefit students, the school, and possibly the community.

In your writing, be sure to:

- **IDENTIFY** the **PURPOSE** of your email
- **EXPLAIN** the details of the situation
- **ORGANIZE** your thoughts appropriately in sentences and paragraphs
- Use **VOCABULARY** that is appropriate and effective
- **SIGN** your email “Darcy Jones” **DO NOT SIGN YOUR OWN NAME!**

This is an up-to-the-moment engaging multicultural introduction to education and teaching and the challenges and opportunities they present. Together, the four authors bring a rich blend of theory and practical application to this groundbreaking text. Jeannie Oakes is a leading education researcher and former director of the UCLA teacher education program. Martin Lipton is an education writer and consultant and has taught in public schools for 31 years. Lauren Anderson and Jamy Stillman are former public school teachers now working as teacher educators. This unique comprehensive foundational text considers the values and politics that pervade the U.S. education system, explains the roots of conventional thinking about schooling and teaching, asks critical questions about how issues of power and privilege have shaped and continue to shape educational opportunity, and presents powerful examples of real teachers working for equity and justice. Taking the position that a hopeful democratic future depends on ensuring that all students learn, the text pays particular attention to inequalities associated with race, social class, language, gender, and other social categories and explores teachers' role in addressing them. The text provides a research-based and practical treatment of essential topics and situates those topics in relation to democratic values, issues of diversity, and cognitive, sociocultural, and constructivist perspectives on learning. The text shows how knowledge of education foundations and history can help teachers understand the organization of today's schools, the content of contemporary curriculum, and the methods of modern teaching. It likewise shows how teachers can use such knowledge when thinking about and responding to headline issues like charter schools, vouchers, standards testing, and bilingual education, to name just a few. Central to this text is a belief that schools can and must be places of extraordinary educational quality and institutions in the service of social justice. Thus, the authors address head-on tensions between principles of democratic schooling and competition for always-scarce high-quality opportunities. Woven through the text are the voices of a diverse group of teachers who share their analyses and personal anecdotes concerning what teaching to change the world means and involves. Pedagogical Features: Digging Deeper sections referenced at the end of each chapter and featured online include supplementary readings and resources from scholars and practitioners who are addressing issues raised in the text. Instructor's Manual offers insights about how to teach course content in ways that are consistent with cognitive and sociocultural learning theories, culturally diverse pedagogy, and authentic assessment.
