**The researchED Guide to Assessment: An evidence-informed guide for teachers** Sarah Donarski, Tom Bennett, 2020-07-20

A teacher's job is to create an environment where our students' engagement in learning proceeds towards an intended direction In order for this to occur we must form a bridge between the teaching of material in the classroom and how the learning of that information is being processed and manipulated by our students The only way we can do this effectively is through the process of assessment Recent theoretical history on how to effectively establish and implement assessment strategies into policy has caused much confusion it is high time to consider how assessment marking and feedback have changed over the years so that conversations about how best to move forward can begin In this researchED Guide to Assessment Sarah Donarski brings together chapters by Dylan Wiliam Tom Sherrington Alison Peacock and many others to consider the debates critique the strategies and find solutions that not only better the progress of pupils but also assist the wellbeing and manageability of workload for staff
