

Glossary of Philosophical Terms

This glossary reproduced from "The Basics of Philosophy" by Luke Mastin, 2008; http://www.philosophybasics.com/general_glossary.html.

Agency: the capacity for humans to make choices and to impose those choices on the world.

A posteriori: where knowledge is possible only subsequent, or posterior, to certain sense experiences, in addition to the use of reason (empirical).

A priori: where knowledge is possible independently of, or prior to, any experience, and requires only the use of reason (non-empirical).

Axiom: a proposition that is not proved or demonstrated but considered to be self-evident and taken for granted.

Causality: the law that states that each cause has a specific effect, and that this effect is dependent on the initial identities of the agents involved.

Consciousness: the faculty which perceives and identifies things that exist, and the relationship between oneself and one's environment.

Contingency: the status of facts that are not logically necessarily true or false (the possibility of something happening or not happening).

Deductive Reasoning: reasoning that proceeds from general principles or premises to derive particular information (what follows necessarily from given premises).

Dialectic: the exchange of arguments and counter-arguments, respectively advocating propositions (theses) and counter-propositions (antitheses), in arriving at a conclusion (synthesis).

Emergence: the way complex systems and patterns arise (emerge) out of a multiplicity of relatively simple interactions.

Entity: something that has a distinct and separate existence, although not necessarily a material existence.

Essence: the attributes that make an object or substance what it fundamentally is, and that it has necessarily.

Existence: the state or fact of existing or being (the continuance in being or life).

Fallacy: any sort of mistake in reasoning or inference (essentially, anything that causes an argument to go wrong).

Formal Language: an organized set of symbols which can be precisely defined in terms of just the shapes and locations of those symbols, without any reference to any meanings or interpretations.

Handbook of Philosophical Logic Dov M. Gabbay, Franz Guenther, 2013-11-09 It is with great pleasure that we are presenting to the community the second edition of this extraordinary handbook It has been over 15 years since the publication of the first edition and there have been great changes in the landscape of philosophical logic since then The first edition has proved invaluable to generations of students and researchers in formal philosophy and language as well as to consumers of logic in many applied areas The main logic article in the Encyclopaedia Britannica 1999 has described the first edition as the best starting point for exploring any of the topics in logic We are confident that the second edition will prove to be just as good The first edition was the second handbook published for the logic community It followed the North Holland one volume Handbook of Mathematical Logic published in 1977 edited by the late Jon Barwise The four volume Handbook of Philosophical Logic published 1983 1989 came at a fortunate temporal junction at the evolution of logic This was the time when logic was gaining ground in computer science and artificial intelligence circles These areas were under increasing commercial pressure to provide devices which help and or replace the human in his daily activity This pressure required the use of logic in the modelling of human activity and organisation on the one hand and to provide the theoretical basis for the computer program constructs on the other

Studies in the Formation of Medieval Hebrew Philosophical Terminology Reimund Leicht, Giuseppe Veltri, 2020-02-17 This volume contains studies based on papers delivered at the international conference of the PESHAT in Context project entitled Themes Terminology and Translation Procedures in Twelfth Century Jewish Philosophy The central figure in this book is Judah Ibn Tibbon He sired the Ibn Tibbon family of translators which influenced philosophical and scientific Hebrew writing for centuries More broadly the study of this early phase of the Hebrew translation movement also reveals that the formation of a standardized Hebrew terminology was a long process that was never fully completed Terminological shifts are frequent even within the Tibbonide family to say nothing of the fascinating terminological diversity displayed by other authors and translators discussed in this book

perspective for those new to the field **The Oxford Handbook of Philosophy in Early Modern Europe** Desmond M. Clarke, Catherine Wilson, 2013-05-23 In this Handbook twenty six leading scholars survey the development of philosophy between the middle of the sixteenth century and the early eighteenth century The five parts of the book cover metaphysics and natural philosophy the mind the passions and aesthetics epistemology logic mathematics and language ethics and political philosophy and religion The period between the publication of Copernicus's *De Revolutionibus* and Berkeley's reflections on Newton and Locke saw one of the most fundamental changes in the history of our way of thinking about the universe This radical transformation of worldview was partly a response to what we now call the Scientific Revolution it was equally a reflection of political changes that were no less fundamental which included the establishment of nation states and some of the first attempts to formulate a theory of international rights and justice Finally the Reformation and its aftermath undermined the apparent unity of the Christian church in Europe and challenged both religious beliefs that had been accepted for centuries and the interpretation of the Bible on which they had been based The Handbook surveys a number of the most important developments in the philosophy of the period as these are expounded both in texts that have since become very familiar and in other philosophical texts that are undeservedly less well known It also reaches beyond the philosophy to make evident the fluidity of the boundary with science and to consider the impact on philosophy of historical and political events explorations revolutions and reforms inventions and discoveries Thus it not only offers a guide to the most important areas of recent research but also offers some new questions for historians of philosophy to pursue and to have indicated areas that are ripe for further exploration *A Dictionary of Philosophical Terms and Names* ,1997 Presents a dictionary of philosophical terms and names which contains a guide to technical terms and personal names that occur in the study of philosophy Includes definitions and links to electronic texts detailed discussions and other online resources Highlights information on topics such as alienation behaviorism categorical logic conversion emotive meaning and Albert Einstein **A Guide to Asian Philosophy Classics** Puqun Li, 2012-07-19 This book guides readers through ten classic works of Asian philosophy Several major schools of Eastern thought are discussed including Hinduism Buddhism Confucianism Daoism Taoism and Chan Zen The author connects the ideas of these schools to those of Western philosophy thereby making the material accessible to people who are unfamiliar with the cultures and intellectual traditions of Asia A wide range of important topics are addressed reality time self knowledge ethics human nature enlightenment and death **The Bookseller** ,1913 Official organ of the book trade of the United Kingdom **The Publishers' Circular and Booksellers' Record** ,1925 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1909 *Bookseller and the Stationery Trades' Journal* ,1913 *The Publisher* ,1909 **Books of Definition in Islamic Philosophy** Kiki Kennedy-Day, 2003-09-02 Islamic Philosophy has unusual origins Originally a hybrid of Greek philosophy and early Islamic theology its technical language consisted of a number of words translated from the Greek This book studies

how Islamic philosophers of the ninth century AD such as al Kindi al Farabi and Ibn Sina developed an indigenous set of terms and concepts Their Books of Definition influenced the revision of the Arabic language to incorporate these new fields of knowledge Books of Definition in Islamic Philosophy The Limits of Words uses the work of these philosophers as a basis from which a comparison with their Greek precedents is enabled The book presents a framework for incorporating an Islamic and historically contextualised philosophy into a continuum of world philosophers At the core of this framework is Ibn Sina s Kitab al hudud which the author has translated into English and situates it in its correct geopolitical framework In establishing a historical and literary context for the writing and circulation of Ibn Sina s definitions the book breaks new ground in the integration of Islamic philosophy within a general history of philosophies This fascinating and comprehensive study will be of interest to scholars and postgraduate students of Islamic Philosophy Guides for the Journey David G. Creamer,1996 Guides for the Journey is an introduction to the lives and thoughts of three significant thinkers John Macmurray Bernard Lonergan and James Fowler The book shows how their work is helpful in interpreting our lives and the world in which we live Written for the introductory student or reader this book makes Macmurray Lonergan and Fowler s work more accessible and is the first book to actually compare the thought of the three Throughout the book quotations from their writings help the reader to absorb and appreciate the texture and meaning of their work Readers are not presumed to be familiar with philosophy or the meaning of technical terms used An index and a glossary of names and key terms provide easy reference tools Endnotes and a bibliography will stimulate further reading on the subject Guides for the Journey is highly appropriate for university courses in religion as well as religious workshops and lectures Contents List of Tables Preface Acknowledgments Introduction Endnotes John Macmurray 1891-1976 Endnotes Macmurray s Characterization of the Personal Life Endnotes Bernard Lonergan Endnotes Lonergan s Understanding of Understanding Endnotes James Fowler b 1940 Endnotes Fowler s Faith Development Theory Endnotes A Summing Up Endnotes Glossary Bibliography Index A *Bibliographic Guide to the Comparative Study of Ethics* John Braisted Carman,Mark Juergensmeyer,William Darrow,1991-04-26 This bibliography is the culmination of four years work by a team of noted scholars its annotated entries are organised by religious tradition and cover each tradition s central concepts offering a judicious selection of primary and secondary works as well as recommendations of cross cultural topics to be explored Specialists in the history and literature of religions and comparative religion will find this bibliography a valuable research tool
