

## 9 Bucket List Sexual Experiences

Here are some sexual experiences that many people commonly regret not having:

- To be pursued sexually
- A partner taking control
- A one-night stand/vacation fling
- Romantic lovemaking
- Oral sex
- The ability to discuss fantasies
- Exploration of your erogenous zones
- Kissing
- Spending a long time in bed

If this resonates with you, take one thing from it and talk to your partner about it. So many people's sex lives could be improved purely by talking directly about what bothers them!

species Natural selection allowed for the adaptation of the human female to this environmental stress by reconfiguring her hormonal cycles entraining them with the periodicity of the moon The results however did much more than ensure our existence they imbued women with the concept of time and gave them control over sex a power that males sought to reclaim And the possibility of achieving immortality through heirs drove men to construct patriarchal cultures that went on to dominate so much of human history From the nature of courtship to the evolution of language Shlain's brilliant and wide ranging exploration stimulates new thinking about very old matters
