Last Chance To See:

Last Chance to See Douglas Adams, Mark Carwardine, 2011-09-21 New York Times bestselling author Douglas Adams and zoologist Mark Carwardine take off around the world in search of exotic endangered creatures. Join them as they encounter the animal kingdom in its stunning beauty, astonishing variety, and imminent peril: the giant Komodo dragon of Indonesia, the helpless but loveable Kakapo of New Zealand, the blind river dolphins of China, the white rhinos of Zaire, the rare birds of Mauritius island in the Indian Ocean. Hilarious and poignant as only Douglas Adams can be, *Last Chance to See* is an entertaining and arresting odyssey through the Earth's magnificent wildlife galaxy. Praise for *Last Chance to See*: Lively, sharply satirical, brilliantly written, shows how human care can undo what human carelessness has wrought. The Atlantic: These authors don't hesitate to present the alarming facts. More than 1,000 species of animals and plants become extinct every year. Perhaps Adams and Carwardine, with their witty science, will help prevent such misadventures in the future. Boston Sunday Herald: Very funny and moving. The glimpses of rare fauna seem to have enlarged Adams's thinking, enlivened his world, and so might the animals do for us all if we were to help them live. The Washington Post Book World: Adams invites us to enter into a conspiracy of laughter and caring. Los Angeles Times: Amusing, thought-provoking. Its details on the heroic efforts being made to save these animals are inspirational. The New York Times Book Review: *Last Chance Tourism*. Harvey Lemelin, Jackie Dawson, Emma J. Stewart, 2013-03 Concerns over vanishing destinations such as the Great Barrier Reef, the Everglades of Florida, the ice cap on Mt Kilimanjaro, and the Maldives have prompted some travel operators and tour agencies to recommend these destinations to consumers before they disappear. This is the first book to empirically examine and evaluate this contemporary tourism development, providing a new angle on the effects of global change and pressures of visitation on tourism destinations. It aims to develop the conceptual definition of last chance tourism, examine the ethics surrounding this type of travel, and provide case studies highlighting this form of tourism in different regions. In particular, it critically reviews the advantages of publicizing these vulnerable destinations to raise awareness and promote conservation efforts, but also the issue of attracting more tourists seeking to undergo such experiences before they are gone forever, accelerating the negative impacts. It further examines current trends, discusses escalating challenges, and highlights future opportunities. *Venomous* Christie Wilcox, 2016-08-09 In *Venomous*, the molecular biologist Christie Wilcox investigates venoms and the animals that use them, revealing how they work, what they do to the human body, and how they can revolutionise biochemistry and medicine. Today Wilcox takes us from the coast of Indonesia to the rainforests of Peru in search of the secrets of these mysterious animals. We encounter jellyfish that release microscopic venom-packed darts known to kill humans in just two minutes; a two-inch caterpillar with toxic bristles that trigger haemorrhaging throughout the body; and a stunning blue-ringed octopus with saliva capable of inducing total paralysis. How could an animal as simple as a jellyfish evolve such an intricate deadly poison? And how can a snake possess enzymes that tear through tissue yet leave its

own body unscathed Wilcox meets the fearless scientists who often risk their lives studying these lethal beasts to find out and puts her own life on the line to examine these species up close Drawing on her own research on venom chemistry and evolution she also shows how venom is helping us untangle the complex mechanisms of some of our most devastating diseases Venomous reveals that the animals we fear the most actually hold the keys to a deeper understanding of evolution adaptation and immunity Thrilling and surprising at every turn Venomous will change the way you think about our natural world Last Hope: Mankind's Final Chance to Prolong Our Species by Finding New Planets to Inhabit Newnobleman,

The Practice of Sustainable Tourism Michael Hughes,David Weaver,Christof Pforr,2015-06-19 Sustainable tourism is a widely used term that has accumulated considerable attention from researchers and policy makers over the past two decades However there is still an apparently wide gap between theory and practice in the area Recent scholarly research has tended to focus on niche areas of alternative tourism rather than address the broader issues and vagaries and paradoxes that appear to plague the broader notion of sustainable tourism As such there is a need for a new and pragmatic analysis of sustainable tourism as an overarching idea and how this manifests in practice The Practice of Sustainable Tourism fulfils this need by offering a fresh perspective on sustainable tourism as an umbrella concept with inherent tensions It presents a way of thinking about tourism based on the notion of finding common ground using the dialectic tradition of philosophy Dialectics focusses on resolving opposing viewpoints by recognising they have common elements that can be combined into a rational and practical solution over time As part of this approach the book examines the strongly apparent tensions within alternative tourism as well as the paradox of continuing growth and other mass tourism related issues It is divided into three parts Part I includes chapters discussing the general concept of sustainable tourism its history current status and possible futures Part II includes a range of destination case studies exploring how sustainable tourism has been applied and Part III includes perspectives from the tourism operator view Given the international content and challenging themes the book will be appealing internationally to students researchers and academics in the fields of tourism geography sustainability and social science **One Last Chance** Kat Martin,2022-11-29 The latest novel in a new high octane series from the New York Times bestselling author sure to appeal to fans of Sandra Brown Lisa Jackson Julie Garwood Linda Howard and Heather Graham
