be recognized as the most famous extensively used and copied military rifle design of all times the German Model 98 Rifle. But the story does not stop here for many many Countries other than Germany made Mauser rifles. And of course some very special and unusual designs came out of the Mauser factories for specific military needs. At the same time a wide variety of sporting arms were made not only for the German hunting market but also for the English American and other foreign markets. These sporting rifles popularly known as Oberndorf Mausers were made by Mauser and by foreign companies using Mauser designs. Lud also takes each model as it was developed and gives the complete history of the development all the changes to that particular model as compared to earlier models all the specific characteristics of that model that make it unlike any other Mauser all the variations of that model all the minutiae that make it possible to identify that specific model variation or development from all those before and after it including type caliber weight length both barrel and overall magazine capacity sighting equipment rifling makers and markings. Then each model is further identified where possible by the various countries that bought it or made it for themselves the quantities they bought or made the proof markings and seals that were used the minor changes made under each contract by or for each country and the time span involved in the manufacture at each location. And then he gives data on the ammunition cartridge case powder used bullet variations weights and shapes ballistic information. A truly an amazing and very impressive book.
