**The Cosmos** Jay M. Pasachoff, Alex Filippenko, 2013-08-12 An exciting introduction to astronomy the fourth edition of this book uses recent discoveries and stunning photography to inspire non science majors about the Universe Written by two highly experienced and engaging instructors each chapter has been fully updated with more than 200 new images throughout including recent images from space missions and the world s best observatories The newly redesigned text is organized as a series of stories each presenting the history of the field the observations made and how they fit within the process of science our current understanding and what future observations are planned Math is provided in boxes and easily read around making the book suitable for courses taking either mathematical or qualitative approaches New discussion questions encourage students to think widely about astronomy and the role science plays in our everyday lives and podcasts for each chapter aid studying and comprehension Resources in Education ,1996

**Science and Politics** Ian Boyd, 2024-10-04 The recent coronavirus pandemic proved that the time old notion seems now truer than ever that science and politics represent a clash of cultures But why should scientists simply stick to the facts and leave politics to the politicians when the world seems to be falling down around us Drawing on his experience as both a research scientist and an expert advisor at the centre of government Ian Boyd takes an empirical approach to examining the current state of the relationship between science and politics He argues that the way politicians and scientists work together today results in a science that is on tap for ideological mis use and governance that fails to serve humanity s most fundamental needs Justice is unlikely perhaps impossible while science is not a fully integrated part of the systems for collective decision making across society In *Science in Politics* Boyd presents an impassioned argument for a series of conceptual and structural innovations that could resolve this fundamental tension revealing how a radical intermingling of these apparently contradictory professions might provide the world with better politics and better science **The Epworth Herald** ,1897
