It has been used by numerous generations of meat professionals since its first edition in 1966. The new edition brings four new chapters and updated information related to the latest advances in meat animals breeding and technologies for meat preservation processing and packaging. In addition, new relevant aspects of nutritional value, quality and safety of meat as well as methodologies for authenticity and traceability are provided with a compilation of chapters written by a select group of the most experienced and knowledgeable people in the meat field. This book covers essential information and latest advances and developments from the initial meat animal's growth and development to the time of slaughter and to the processing technologies, packaging and distribution till consumption of its meat. Relevant aspects of its composition, nutritional value, eating quality, consumer acceptance, safety and sustainability issues are also covered. Includes new information on improved added value of meat by products for increased sustainability. Presents best practices sustainable animal production and meat processing. Provides the latest developments in organic meat and meat products and on cell cultured meat and future market opportunities      **Meat & Poultry**, 1997      Meat Business Magazine, 1994      **The New Livestock Farmer** Rebecca Thistlethwaite, Jim Dunlop, 2015 How can anyone from a backyard hobbyist to a large scale rancher go about raising and selling ethically produced meats directly to consumers, restaurants and butcher shops? The regulations and logistics can be daunting enough to turn away most would-be livestock farmers, and finding and keeping their customers challenges the rest. Farmer consultant and author Rebecca Thistlethwaite and her husband and co-author Jim Dunlop both have extensive experience raising a variety of pastured livestock in California and now on their homestead farm in Oregon. Each species chapter discusses the unique requirements of that animal, then delves into the steps it takes to prepare and get them to market      *Culinology* Research Chefs Association, 2016-02-29 *Culinology: The Intersection of Culinary Art and Food Science* will demonstrate how the disciplines of culinary arts and food science work hand in hand in the research and development of new manufactured food products for the commercial retail and foodservice industries. It will be the authoritative source that will add value and relevance to this growing discipline and its practitioners. Integrating culinary arts with food science and technology, this book provides the best strategy for developing successful food products on a large scale. Real world applications and business models ground the book and clearly illustrate how the concepts and theories work in business and industry      Lancaster Livestock Reporter, 1992      **Retail Meat Management Practices** Jeffrey Miller Thomas, 1994      *Laboratory Manual for Meat Science* Gordon C.
