

Student Exploration: Growing Plants

Answer Key

Vocabulary: compost, fertilizer, mass, seed, soil, variable

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

[Note: The purpose of these questions is to activate prior knowledge and get students thinking. Students are not expected to know the answers to the pre-Gizmo questions.]

1. What do you think plants need to grow and stay healthy?

Seeds need water, light, and nutrients (usually from soil) to grow into healthy plants.

2. **Soil** is a combination of tiny rock fragments and decayed plant materials. How do you think soil helps a plant?

Soil provides nutrients and water to a plant. In addition, it allows the roots to anchor the plant.

Gizmo Warm-up: Grow the Biggest Plant!

1. In the Gizmo set up the three pots however you like:
 - Choose a **seed** to drag into each pot.
 - Click on the light bulbs to turn them on or off.
 - Drag the **Water** slider up or down to set the amount of water each plant will get.
 - If you like, drag **fertilizer** or **compost** into a pot.
 - When the pots are ready, click **Play** (▶) and wait for the simulation to end.

2. How tall was your tallest plant? *Answers will vary.*

3. Click **Reset** (↺) and **Clear pots**. Run a few more trials to grow the tallest plants you can. What conditions led to the tallest plant?

Answers will vary.

[The tallest possible plant in the Gizmo is an 80-cm bean plant. This can occur with two lights on, 80 mL of water per day added, and the soil fertilized. There is some randomness in the model, however, so these ideal conditions will only rarely produce an 80-cm plant.]
